## Dysart sets '84 budget

Overall increase slight in mood of restraint

Property owners in Dysart et al will face only a marginal increase in their tax bills this year, as a mood of restraint grips all levels of local government.

Total commercial and residential levies will increase only 3.02 percent this year in Dysart, made up of a 6.88 percent increase in the municipal levy, a slight drop in the county levy, and a 2.73 percent increase in the education levy.

Council's 1984 budget, adopted Monday, anticipates total municipal expenditures of \$2,212,402 this year, up from last year's actual expenditures of \$2,085,601. The 1984 total includes a projected surplus of \$33,846.

Dysart intends to spend a total of \$400,000 in 1984 under the category of general government. Included in the total is \$5000 for a fund to meet future election expenses, \$45,000 for working funds, to bring the total up to approximately \$200,000, and \$10,000 to create additional parking on Station Street opposite the Haliburton County Echo office. Council also anticipated higher interest charges in the new budget, allowing \$25,000 to meet the cost of borrowing.

Under the protection to persons and property category, council budgeted \$98,000 for 1984, reflecting 1983 actual expenditures of \$98,221.

Transportation expenses, which include the municipal road budget, have been set at \$917,000 this year, up only marginally from 1983 actual expenditures.

Two other anticipated expenditures in 1984 are \$10,000 to repair retaining walls along the connecting link in the area of the government dock in Haliburton, and \$10,000 to meet supervisory costs for any government funded make work projects the municipality obtains this year.

The new budget also includes \$5000 to construct sidewalks on Park Street from Maple Street to Rotary beach.

The environmental budget has been set at \$166,000 reflecting actual 1983 expenditures for gar-

bage disposal, the sewage plant and sewage system payments of \$160,000.

Under the category of health, council expects to spend \$175,000 in 1984, with \$165,000 of that total going for ambulance services, which are fully subsidized by provincial grants.

Expenditures for social and family services in 1984 are expected to be \$154,000, with most of that money recovered by provincial payments for welfare assistance.

The recreation budget will total \$164,402 this year. Included in this

category is a new anticipated expense of \$10,000 to help meet the cost of linking cross country ski trails in the area. As well, council has included funds for improvements to the West Guilford Recreation Centre and for repairs to the information caboose in Haliburton.

Spending for planning and development is expected to total \$113,000 this year, including \$107,000 for council's share of work scheduled under the Ontario Neighbourhood Improvement Program agreement with the province, principally improvements at Rotary beach and renovations of the arena.

## Late tax penalty stays, but question still open

Dysart et al residents who don't get their tax bills paid by the due date will continue to be charged a monthly interest penalty, council has decided, but it agreed to examine the matter in detail next year.

Reeve Murray Fearrey brought the matter of penalties to the table Monday when council adopted levies for its 1984 budget. Fearrey said some people objected to paying a penalty of one month interest if they missed the due date by only a few days, and he felt their complaints were justified.

Under present policy taxes in Dysart are due at the end of February, when the bill is 50 percent of last year's taxes, and at the end of June, when the remaining levy for the current year is due. People who miss the deadline are charged an interest penalty of one and a quarter percent per month, and the full month's interest is due regardless of the day of the month on which the bill is paid.

Fearrey suggested that council should consider pro rating the interest, so that if a bill is paid ten days late, the penalty would be one third of the month's interest.

But other members of council felt this would defeat the purpose of an interest penalty, as well as create extra administrative work for the municipality.

Councillor Lloyd Leadbeater stressed that the interest on overdue bills is a penalty, and as such should not be pro rated.

"I don't want to make it difficult, but we do have to run the municipality like a business," he commented.

Council also discussed the possibility of offering discounts to people who pay their tax bills when they are received rather than waiting until the due date. This practice was followed in the past, but it was complex to administer, and was dropped.

Clerk Wayne Wood said Dysart's current approach to billing and interest penalties is in line with provincial regulations and procedures followed in most other Ontario municipalities. Wood also pointed out that it is easier for some property owners to pay bills when they arrive than for others, and that discounts for owners of large tracts of land who pay their bills early

Haliburton ambulance attendant Bob English demonstrated some of the equipment carried in the vehicle to youngsters from the Grade 2 class at

Victoria Street School who toured Haliburton Hospital last Thursday. The hospital tour is an annual event in conjunction with Nurses Week.

## Cottager says dump pollutes

Environment ministry denies that problem is acute

By ELIZABETH CHURCH  
Staff Reporter

An Ingoldsby cottager has expressed concern that the dump at Ingoldsby is not environmentally safe; however, a representative for the Ministry of the Environment has denied that there is any problem with the dump at this time.

In reference to a study conducted by the Ministry of the Environment in 1983, Joe Curtin says leachate, which contains a very high level of

contaminants, is flowing out of the dump and polluting a stream which flows directly into the north-east corner of Canning Lake. "I, personally, believe leachate is also entering lake waters closer to Ingoldsby," he adds.

Frank Reinholz of the provincial Ministry of the Environment, who is responsible for landfill sites in Muskoka and Haliburton counties, said any landfill site generates leachate. There is "nothing un-

sual" in the 1983 inspection done by the staff from the Toronto office, he said. According to the report, Reinholz said, the leachate is heading into a swampy area. The report finds water upstream from the wetlands is contaminated, but states that water downstream is only slightly affected.

"Using swampy areas is a recognized means to control landfill sites," said Reinholz. The use of

## Echo office will be closed on Victoria Day

The Haliburton County Echo will be published a day later than usual next week because of the Victoria Day holiday weekend. The newspaper will be available to subscribers and in retail outlets on Thursday next week, rather than Wednesday.

Reason for the change is to allow Echo employees to enjoy a holiday on Monday. In the past, the staff has been unable to take Monday long weekend holidays because of Wednesday publication date.

For next week's issue only, the office will be closed all day Monday. Classified and display advertising will be accepted until Tuesday at 5 p.m.

The letters will soon be changed to read 'J. Douglas Hodgson Elementary School', in honour of the man who has served as director of education in

Haliburton County for the past 15 years. Renaming of the school was announced at the board chairman's dinner last Friday.

## School renamed: HHSES will be officially called J. Douglas Hodgson Elementary

The Haliburton County Board of Education has named a school in honour of the man who has been director of education in Haliburton County for the past 15 years.

The senior elementary school in Haliburton will now be known as the J. Douglas Hodgson Elementary School. Approval for the change came at a board meeting in April, but the board's decision was not made public until last Friday night, at the annual board chairman's dinner.

J. Douglas Hodgson will retire in June, after a 38 year career as an educator and administrator. He will be replaced by Stuart Baker, who is at present the principal of Archie

Stouffer Elementary School in Minden.

Hodgson began his teaching career at a one room school house in Harburn, later joining the staff of the newly opened Haliburton County District High School, now known as Haliburton Highlands Secondary School. After a four year stint as principal of Millbrook High School, he returned to Haliburton to become principal at HHSS.

In January 1969, he was named director of education for Haliburton County, a position he has held ever since.

In mid June, the public will have a chance to honour the retiring director at an open house at the school that now bears his name.

## Spring Fling goes Sunday

Plans are being finalized for Haliburton's second annual Spring Fling celebration. The event is a joint effort of the municipality and the Dysart recreation and community centres board, initiated last year as a lighthearted way of welcoming the arrival of warmer weather and the cottaging season.

Events begin in the early afternoon Sunday, May 20, and will continue for several hours, capped by a spectacular fireworks display that will light up the sky over Head Lake.

Among the events planned are a paddleboat challenge, a tennis tournament, adult shuffleboard tournament, horseshoe tournaments for youngsters and adults, snowmobile water crossing demonstration, kids' novelty races, canoe races, paddleboat races for youngsters, an obstacle course for children, a family picnic and an open air church service in the bandshell.

Also taking place throughout the day will be a fish derby on Head Lake, a fine arts show at the Rails' End Gallery, and a bakesale on the boardwalk.

Entertaining in the bandshell at various times throughout the afternoon will be the senior elementary school band, the high school stage band, the Highlands Dixie Band, the Legion Pipe Band and the Scottish Country Dancers.

As well, Canadian Forces aircraft will stage a fly past.

## New sign planned

Visitors to Haliburton village soon will be welcomed by a large sign describing the village as "the heart of the highlands".

At a meeting Monday, council selected one of two designs submitted by Andy Helo, a professional sign painter from Harcourt, and will ask him to complete it.

Council favoured a structure consisting of three vertical logs of graduated length anchored in a natural stone base. A rectangular sign bearing the words "Welcome to Haliburton - The Heart of the Highlands" will be hung from the vertical support with top and bottom logs, forming a 't' shaped structure. Above the sign on the three vertical logs, Dysart's municipal crest will be reproduced.

The new sign will be erected at the Highway 121 entrance to the village approximately opposite the CF 100 fighter aircraft.

Five truck loads of new cars and trucks arrived at Curry Motors on Monday, as the local GM dealership gears up for its annual spring sale. The transport

vehicles turned a lot of heads on main street as they rumbled through the business district.

## Salvation Army campaigning

Goal of raising \$5300 in sight at half way point

By ELIZABETH CHURCH  
Staff Reporter

Throughout this month, the Salvation Army of Haliburton is conducting their Red Shield Appeal, the organization's annual fund raising drive. The objective for this year's campaign is \$5,300. Lieutenant Sidney Buell, who heads the Army in Haliburton, is optimistic about reaching this goal. "People are giving quite well," he said.

To date, Army members and volunteers have raised approximately \$2,450 through door-to-door canvassing and a mailing campaign which is being used for the first time this year. Blitz nights were also held in Haliburton on May 7, and in Minden on May 10. During these evenings, volunteers called on every resident in the community. In the remainder of the county, canvassers will continue to make calls throughout the month.

Although Buell is pleased with this year's response, he also referred to the difficulties of staging a door-to-door drive in an area such as Haliburton. "There is a lot of driving and very few people," he said.

In response to this difficulty,

Buell said he plans to revamp the system of zones which the campaign is organized into to make them more efficient. He also noted that there are many workers in Minden and Haliburton, but that it has been more difficult to find volunteers in the surrounding areas. Local wor-

kers are preferable, he said, because they are more likely to know the people they call on. Also, canvassing is made easier if the worker lives nearby. Next year, he hopes to contact other groups in various areas in an attempt to increase the number of volunteers.

## MTC to rebuild Hwy. 648

Highway 648 from Highway 121 through Wilberforce will be reconstructed next year, Monmouth Township council has been told. Final details of the reconstruction were worked out earlier this month when council met with provincial ministry of transportation and communications representatives.

A total of 7.8 kilometres of the highway will be improved and resurfaced, extending through Wilberforce to the bridge on the east side of the hamlet. A turning lane will be created at the junction of County Road 4, and a lane added in front of the elementary school. As well, the MTC has agreed to install storm sewers along the roadway in Wilberforce, construct curbs and gutters, and extend paving to create sidewalks.

Reeve Keith Tallman said council has been "pressing the MTC for the last year and a half to get something done."

"It's going to be quite an improvement," the reeve said.

Tenders are expected to be called in late autumn, with the work to be undertaken in 1985.

## Heart monitoring system aids hospital cardiac care

Since December, the job of caring for cardiac patients at Haliburton Hospital has been just a little easier, thanks to a centralized heart monitoring device. The machine, valued at \$22,000, consists of two bedside units into which electrodes attached to a patient are plugged, and a display panel at the nursing station. The device was purchased with a \$6000 grant from the munici-

pality of Dysart et al and money raised by the hospital auxiliary.

The centralized unit replaces two portable machines which were monitored in hallways outside patients' rooms. With the new system in place, a nurse can carry out other tasks at the main desk while still observing patients' heart functions.

While the system can be expanded to four bedside units, nurse administrator Marlene Bennett says there does not appear to be a need at present to have more than two rooms wired in to the central monitor.

The two portable units will continue to be used at the hospital, one in the emergency room and the other as a standby. It is hoped that a new, smaller portable machine can be added to the hospital's equipment in the near future, Bennett said. This machine would enable cardiac patients to be monitored while they are transported to other facilities.

Presently, cardiac patients needing monitoring must be transported by air ambulance, because road based ambulances do not have the necessary equipment.

Cost of the portable unit is about \$7000, the nurse administrator said, and funding arrangements are currently being finalized.

"We hope to have it before the summer season," Bennett said.

## Police now work ten hour day

By ELIZABETH CHURCH  
Staff Reporter

Ontario Provincial Police operating out of Minden are working on new shifts. The change in scheduling allows officers to work 10 hour days for four days and at times to work six days with six days off. The change to longer shifts and varying work weeks is a province-wide move which is being implemented on a trial basis for the next six months.

Sergeant Bill Bailey of the Minden detachment said he hopes the new hours will result in better coverage because of the overlap in shifts that the longer days allow. Bailey said the new system has been well received by the 20 men who are on duty. The remaining five officers of the detachment who work in the office have not been affected by the change.

The move to more flexible hours by the Provincial Police has been under study for some time. Sergeant Bailey said many departments have worked under this system for years. The decision to adopt this programme was a voluntary one on the part of the OPP officers. During this test period most detachments in Ontario will be on the 10 hour system although some smaller units have continued to operate on eight hour shifts because there are too few officers to make the change.

## Gull River stocked

By ELIZABETH CHURCH  
Staff Reporter

Last week \$1,000 worth of rainbow trout were released into the Gull River in Minden. The stocking of the river is part of Minden's Business Improvement Area programme. Half the money needed for the stocking was supplied by BIA donations, while the remaining \$500 came from the Parks Department.

Ed Pergolas, Deputy Reeve of Anson, Hindon and Minden, said

## Senior housing starts

### Long waiting list anticipated for complex

By ELIZABETH CHURCH  
Staff Reporter

Construction has begun on Staunworth Court, a \$895,000, 22 unit senior citizen project in Minden. The project, being developed by the Staunworth Non-Profit Housing Corporation, is located on Prentice Street in Minden and is scheduled to open on October 1. It will contain 17 one-bedroom and five two-bedroom apartments in a one storey building. One of the two-bedroom apartments is designed for use by handicapped persons.

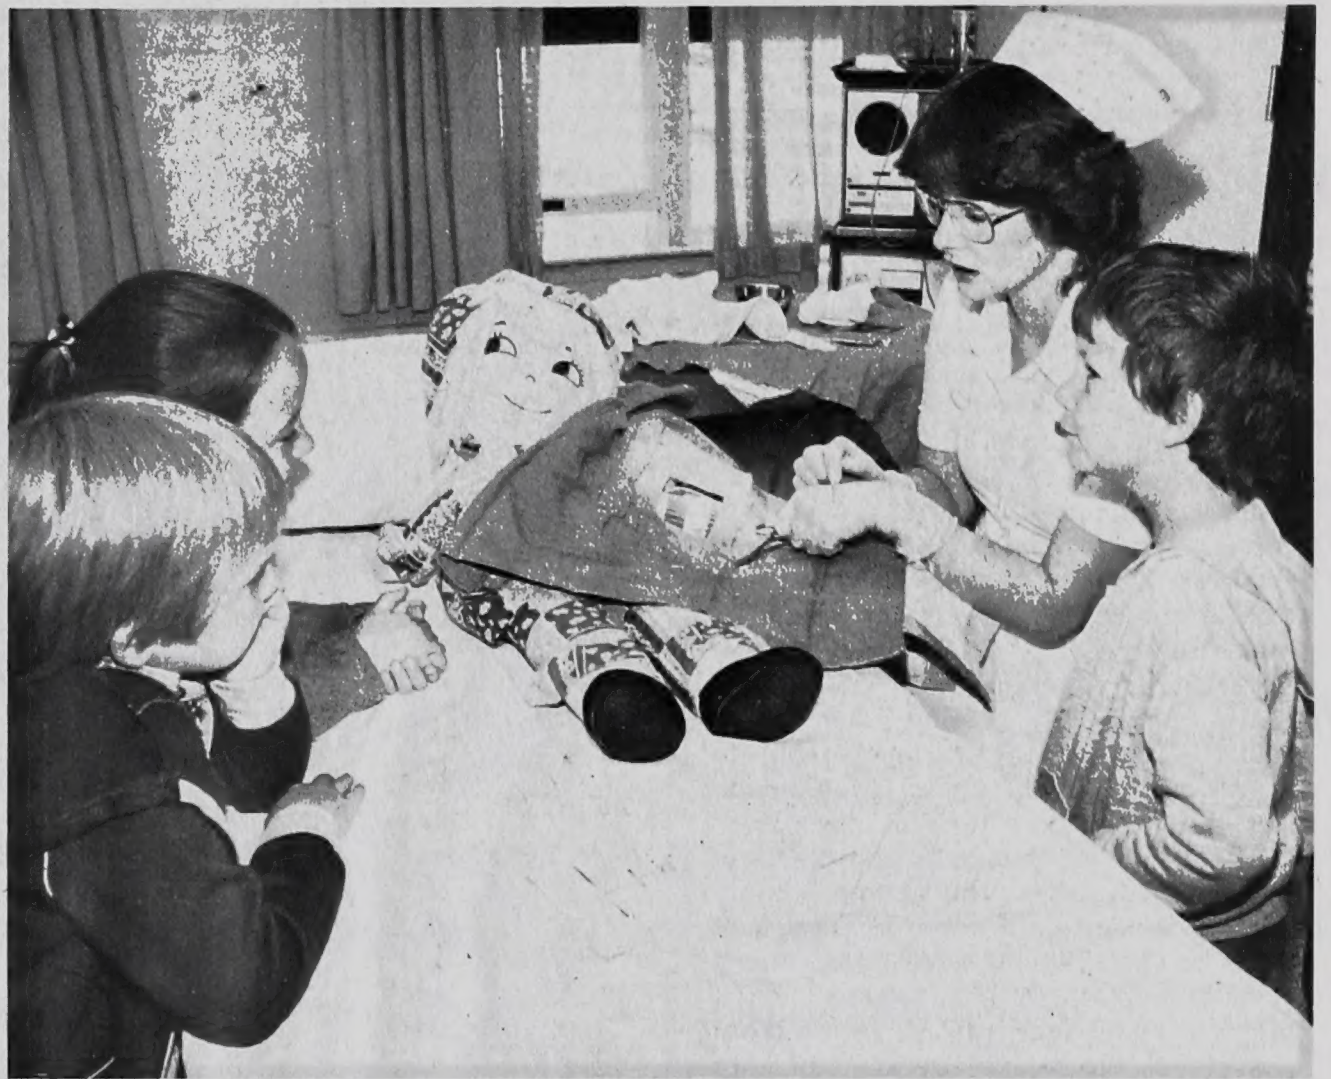

Ed Pergolas, Deputy Reeve of Anson, Hindon and Minden, said that as of this week 60 applications have been received for the 22 units. As a result, he anticipates that there will be a fairly lengthy waiting list for residency in the apartments.

The Staunworth Court project will receive an estimated \$83,268 in federal grants during the first year of its operation. These funds will be used to maintain over-all rents at market levels and to subsidize those units in which the rent is geared to the income of the tenant. Of the 22 units available at Staunworth Court,

between 25 and 50 percent will have their rent determined by the income of the tenant. The Ministry of Municipal Affairs and Housing has designed a points system to help determine who will qualify for these units. Pergolas said council will make their decisions according to these guidelines. He noted that normally, if an applicant is only living on an old age security, he or she will qualify for assistance.

"The less money you make, the more funding you will receive," he said, adding that the system established by the ministry is very complicated.

Under the municipal non-profit housing programme administered by the province, mortgage and loans from private financial institutions are guaranteed by CMHC, the federal housing agency. In addition, the federal government provides rent reduction grants that will reduce the effective interest rate on these loans to two percent. The province offers an additional rent reduction grant of up to 100 percent of the federal assistance, if necessary.

Nurse Wendy Wood-Locke demonstrated what happens when someone needs stitches to a group of Grade 2 youngsters last Thursday. The hospital visit

is an educational experience for the youngsters, and helps to make the hospital a less frightening place for them.

## Dump monitored: MOE

from page 1

wetlands to control leachate had not been discovered when the Ingoldsby site was chosen, Reinholz noted, but he added that "through luck, Ingoldsby has a natural attenuation area. The wetland is doing its job," he said, referring to its ability to trap contaminants and stop them from entering nearby lakes.

Curtin, however, is critical of the dependence upon the 125 metres of wetland as the only prevention against undiluted leachate entering

Canning Lake and is also critical of what he estimates as 200 metres of land which separates the dump to the north from the Kashagawigamog-Canning system. In a letter to the editor, Curtin refers to the report which finds that the waters emerge on the lake side of the swamp with "minor impairments"; yet, unlike Reinholz, he is not satisfied with these results. Curtin instead, calls for a relocation of the dump. "There is no shortage of sites which would be far superior to the present one," he says.

In remote and isolated areas such as Haliburton and Muskoka, Reinholz said natural methods of attenuation such as wetlands are the only way to control leachate. The only alternative is to truck the material away to sewage treatment plants, he said, a practice which is too expensive and is therefore impractical for areas that are not densely populated. "The waste has to go somewhere," he said, noting that it is better to "make use of mother nature" in these instances.

With the continuation of monitoring in the future, Reinholz does not see an immediate problem with the present site at Ingoldsby. If the municipality can find a better site, Reinholz said, he would encourage a move, but added that there is nothing to indicate that any such action must be taken at the moment.

## Penalties an issue

from page 1

would be substantial. Projected discounts would have to be included in the municipal budget, he noted.

A third option was suggested by Fearney, who noted that making final payments due at the end of June creates a burden for tourist dependent businesses which may have very little income until the summer rush begins. The reeve said it might be fairer to these taxpayers if the final bill was due in mid July rather than at the end of June.

While council made no formal decision on the matter, it agreed to discuss it again before 1985 final bills are prepared.

By ELIZABETH CHURCH  
Staff Reporter

A Ministry of the Environment Cottage Pollution survey has found that 85 of 160 private disposal systems inspected on Haliburton and Clement Lake are seriously substandard.

The inspections, conducted last summer, are designed to examine and evaluate all existing sewage disposal systems on recreational lakes and to ensure satisfactory correction of all faulty systems.

Of the 124 systems inspected on Haliburton Lake, 65 or 53 per cent were classified as seriously substandard, while 35 or 17 per cent were unsatisfactory due to improper disposal of solid waste or wash-water. According to the guidelines drawn up by the Ministry, a system which is seriously substandard is

one which does not meet current standards of design, construction and location, is in a state of neglect or has limited life. Such a system is not presently causing a pollution problem, however, due to a serious deficiency, it is doubtful that it will be able to treat sewage in the near future. An unsatisfactory system is slightly deficient in design or construction, but in this case, the problem is not expected to lead to a pollution problem.

On Clement Lake, 35 private sewage disposal systems were inspected. Of these, 20 or 57 per cent were found to be seriously substandard and 5 or 14 per cent were classified as unsatisfactory.

In the inspections conducted on both lakes, only two systems were found to be direct polluters. These systems, both found on Haliburton

Lake, are described as permitting sewage or leachate to contaminate the ground or surface water.

Following the classification of the sewage systems by a crew from the Ministry and the confirmation of their evaluation by a supervisor, cases are referred to an Environmental Officer. If a problem exists, the officer interviews the owner to advise him of the findings and to discuss corrective measures. The owner is asked to sign a "Pollution

Abatement Report", describing the existing problem and a final check is made by the Ministry to ensure that adequate repairs have been made. Occasionally, an owner refuses to comply with a correction programme and legal action must be taken.

As of December of 1983, 17 faulty systems on Clement and Haliburton Lake had been corrected and 36 owners had signed agreements to complete corrections during the 1984 construction year.

## Dysart to sign new fire agreement

Dysart et al council will sign its first joint fire agreement with Glamorgan Township.

Dysart fire chief Howard Roberts told council on Monday that a formal agreement between the two municipalities would end a situation

in which he had to accept legal responsibility for responding to a fire call on portions of Koshlong Lake within Glamorgan Township.

He suggested that the agreement should make it clear that Dysart

### First class

The announcement that PineStone Inn is planning yet another expansion will come as no surprise to people who have watched the resort's development with interest in the past few years. Since 1976, when the inn first opened its doors, a program has been underway to improve the grounds, create an exceptionally beautiful golf course, add more rooms, cut more and better cross country ski trails, enlarge the dining room, build chalets, and so on. The ultimate goal is to create one of the finest resorts in Canada, and the goal is drawing ever closer.

PineStone is precisely the kind of development that Haliburton County needs. Located on a huge property, and with its own small lake, pool, tennis courts, golf course and jogging trail, it helps bring prosperity to the area without disturbing the quality of life for other residents. It affords local people an opportunity to enjoy luxurious surroundings without the need of travelling to resorts in other areas.

From the outset, PineStone's owners have tried to involve the community in the resort's development. Today, local residents are proud of PineStone, and credit for that attitude has to go to the men who planned it, and who continue to improve it. It is a beautiful facility, and it is getting more beautiful every year.

Congratulations to everyone who has made PineStone what it is today. The inn's success has been earned with good planning, hard work and a co operative spirit. May it continue to prosper.

### Whose rights?

Recent incidents in which dangerous criminals have escaped from custody while out on day passes have brought home to many people the fact that something is wrong with a justice system that treats offenders with more sympathy and consideration than victims. But citizens don't have to look beyond the borders of Haliburton County to see how ineffective a system is that lets people charged with serious offenses back out on the streets after a few hours of custody, while the victim has no hope of recompense. Time after time, OPP officers solve crimes and lay charges, only to have the accused individual back out on the street the next day, sometimes to commit other crimes. Clearly, something has to be done to change this situation.

It is an important principal of our judicial system of course, that people are innocent until proven guilty. And it could be argued that until someone has been convicted in court, we have no right to take away his or her freedom to walk the streets. But the judicial system also has a responsibility to protect law abiding citizens from persistent offenders, and it is unquestionably failing to do so.

### Cleaning up

Each year, melting snow reveals more than last year's leaves, yellowed grass and rocky hillsides. It also uncovers all manner of garbage pitched into ditches by thoughtless, inconsiderate travellers. Most of that garbage consists of soft drink cans. Why then, does the province see fit not to impose a deposit on cans? The benefit would be a cleaner environment. A deposit might not deter yahoos from pitching garbage out of car windows, but it would surely give other people more of an incentive to pick up the refuse.

Deposits on soft drink bottles have helped keep the environment clean. Deposits on beer bottles and cans have done the same. Since there is no chance that a certain number of people can ever be taught to care about the world around them, the government should do what it can to support the majority who wouldn't dream of littering. It should require deposits on soft drink cans. And the sooner the better.

Trilliums

## Letters to the Editor

### To The Editor:

"We need water! Lord, give us water!" These were the words I heard in the prayers of worshippers when attending a church service in South India.

Nearly three years later, I am getting letters from friends who are indicating the desperate need of water in Central India. Mrs. Pardhe, headmistress of the Clara Bruce High School in Ahmednagar, states that the students have to bring bottled water to school each day. The only other source of water for this school compound of 1200 girls is through a half inch pipe for one hour per day. Rev. Victor of the Word Ministries of India (Hyderabad) writes that the chapel construction (being funded through the H.A.V.E. Committee of Haliburton County) of Ibrahimpuram Village is delayed due to a lack of water.

India is in tremendous need of water, especially clean, uncontaminated water. Through the WALK FOR WELLS on June 2 Haliburton County residents, cottagers and visitors can help provide a drilled well for the students at Clara Bruce school, the villagers of Ibrahimpuram, and many other villages in India. Let's show our concern through walking, sponsoring, and helping in Haliburton County's WALK FOR WELLS.

Gerry Feltham,  
Chairman, H.A.V.E. Committee

### To The Editor:

Your readers would want to know that the Ingoldsby Dump has developed "leachate springs" and "leachate seeps" of contaminated water which is flowing into Canning Lake.

It seems appropriate to bring this up at this time when Anson, Hindon and Minden Township Council is considering waste disposal matters relative to the Scotch Line site and are in the process of considering an Official Plan. Both of these projects might well wish to examine the condition of the Ingoldsby Dump and its alternatives.

"Leachate springs" are formed when there is so much water in a dump it dissolves the solids buried there into a contaminated liquid called "leachate" which then runs out through the ground covering the dump, flows into and pollutes surface waters and nearby streams and bodies of water.

The effect on the ground water is equally destructive.

"Leachate" according to a book titled "Ground Water" (Prentice Hall, 1979) contains large numbers of inorganic contaminants. Total dissolved solids and organic contaminants can be very high. At one dump site more than forty organic contaminants were found in the leachate. Many leachates contain toxic constituents. The current cancer plague in Stouffville, Ontario, is being attributed to leachate from a dump.

In a dump such as the one in Ingoldsby "suspended and dissolved solids in the migrating water transform it from a harmless fluid to a leachate which has all of the characteristics of a strong industrial waste water." This is a quote from an Environment Canada book titled "Stress on Land" published in Ottawa in 1983 (page 47).

Leachate, this powerful and potentially poisonous contaminant and threat to good ground and surface waters, should have no place in our clean Highland lakes. The Ministry of the Environment of Ontario has found that leachate is flowing out of the Ingoldsby Dump and polluting a stream which flows directly into the north-east corner of Canning Lake, a heavily cottaged tourist and recreational lake where boating, swimming and fishing are major activities. I, personally, believe leachate is also entering lake waters closer to Ingoldsby.

A report based on tests conducted at the Ingoldsby Dump in May of 1983 by the Ontario Ministry of the Environment which you might wish to consult says among other things:

1. "Leachate springs are discharging to the small aforementioned tributary passing along the west side of this disposal area. The mound of refuse at this location is about three metres high."

2. Government samples, "indicate a significant impact" on the small tributary from the original fill area.

3. One hundred metres downstream from the leachate seeps water indicates only a slight improvement in the quality due to dilution.

4. The Ministry's Test Pit No. 1 showed "an obvious impact" from the refuse.

5. There is not enough cover material at the site to cover the garbage. A new pit has to be opened in the area to service this site.

## Feir Play

Creighton Feir

The Victoria Day holiday weekend is coming up and this will be the first time that many of our visitors and cottage owners have had the opportunity of coming back to the Highlands of Haliburton since last summer. For many of you this could be the first time that you have had the opportunity to read our newspaper, "The Haliburton County Echo". We hope that you will enjoy reading it from cover to cover. We like to think that this is the beginning of the summer season, when everyone seems to be getting prepared for the busy time that lies ahead. It is also very gratifying for all of us to know that more people will be employed here if only for a few months.

As you can see by reading the advertisements in this week's issue of the Echo there will be plenty of events to attend and things to see this weekend and let's not forget that you lovers of Yard Sales and Auction Sales will be right at home as many of these sales are scheduled for this particular time. We certainly look forward to seeing many of our old friends and let's hope that the weather will be warm and sunny so that the local people and the visitors coming into the area will enjoy the weekend to the fullest. Nice warm weather enables the cottager to get outside and do that work around the cottage that he has been putting off for the past year and has been thinking about during those long cold winter days and nights.

Those of you who haven't been back to the Highlands for a long time will notice many changes in the various communities and many new businesses have opened up while others have changed hands. There is no doubt about the fact that many business people and their employees have been giving a great deal of thought as to just what lies ahead as far as business is concerned this summer. We all hope that it will be busy as everyone can use an extra few dollars. A great deal will depend on just what the weatherman has in store for all of us as this seems to always have a bearing on just how many of the travelling public will hit the road. If we want to look on the positive side of things, and I think we all do, we will see some very encouraging features.

In speaking to some of the transport drivers who deliver into this area, they tell me that we are in for a busy summer as they are carrying many more parcels this year as compared to the same time last year. There seems to be more money around and most people seem to be working. The economy seems to be on the upswing but high interest rates that were announced last week could definitely hurt us. It's certainly not too late to make plans to come up and join us this weekend and while you are thinking about it, why not plan to bring along the entire family for three or four days of good old fashioned fun and entertainment. A few years ago the Highlands of Haliburton were going with a slogan "Nature At Its Rugged Best". This slogan held true then and it's holding true today. I am sure that when you visit the Highlands you will realize that there's no place that you would rather be.

Don Robinson, a member of the Rotary Club of Haliburton, gave his classification talk at one of the club's recent meetings. His classification was Food Broker. His talk was on the subject of assisting the manufacturer to better place his products in the hands of the public in an efficient and progressive manner.

It's certainly good to see Ross Keefer of Haliburton out and about again after being in hospital following a mishap while at work at Emmerson Lumber Limited. He apparently injured himself when he slipped and fell from a height where he was working, to the ground. He told me last week that it would be quite a while before his health would be good enough to let him return to work. We join with his many friends in wishing him a speedy return to good health.

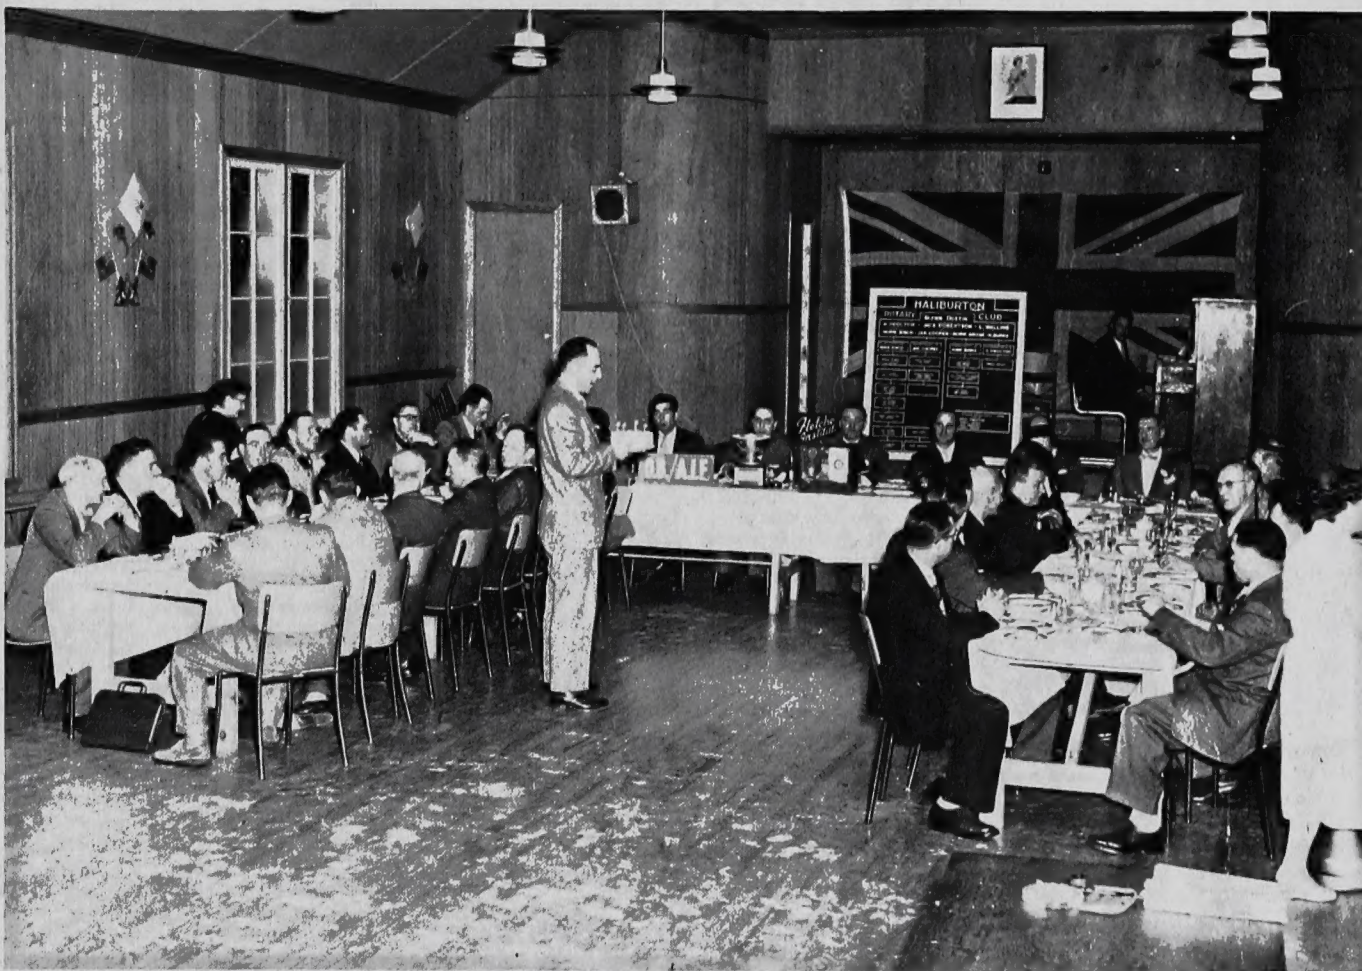

Local citizens as well as visitors are getting ready this weekend for the annual Haliburton Spring Fling which will be held at Head Lake Park in Haliburton this coming Sunday, May 20. The big day, which is organized and sponsored by the Dysart Recreation and Community Centres Board and the Municipality of Dysart will feature band concerts at the bandshell, tennis tournament, adult shuffleboard tournament, horseshoe tournament for kids, snowmobile watercross demonstrations, kids' novelty races, canoe races, kids' paddle boat races, open air church service, and a giant fireworks display on Sunday night at 9:00 p.m. Ongoing events all day will feature a fish derby on Head Lake, Guild of Fine Arts show at the Rails' End Gallery, bake sale on the boardwalk and the highlight of the day will be a flypast from the Canadian Armed Forces. It will also be a day for music lovers with music being supplied by the Senior Elementary School Band, High School Stage Band, Highlands Dixie Band and the Haliburton Legion Pipe Band. Yes, this Sunday, May 20 will be family day at Head Lake Park.

The Haliburton Highlands Museum has announced that the opening of its 1984 season will take place on Friday, May 18 at 10:00 a.m. with many new exhibits. The new museum director, Douglas H. McNichol, and chairman Ross D. Carver have been working very hard these past few weeks in an effort to have all the exhibits ready for the opening. Everyone is invited to look over the museum and to come out and enjoy your heritage.

## Pic of the Past

On Thursday, May 24, 1984 the Rotary Club of Haliburton will celebrate their 40th Anniversary and to mark the occasion the club will be holding a big night at Wig-A-Mog Inn. It will be 40 years to

the day on May 24 of this year that the local Rotary Club held its Charter Night at Wig-A-Mog Inn. During these years the local service club has rendered a great deal of community service to Haliburton and surrounding area. In keeping with the occasion we are pleased to present this photo of a Rotary Club meeting held in 1955 when the club was meeting at the Royal Canadian Legion. Glenn Austin was president that year and can be seen seated at the head table. Fred Clements is at

the piano getting ready to play for the weekly sing song. Norm Sisco is shown presenting a birthday cake to a member of the club. Norm was the first principal of the New Haliburton Highlands Secondary School in 1953. He was later with the Ontario Department of Education and played a major role in planning and organizing the twenty-two Ontario Colleges. Our thanks to Glenn Austin for submitting the photo which was taken by Harold Herlihey.

## Queen's Park Report

On May 3 I appeared before the Electoral Boundaries Commission to oppose a preliminary proposal to remove three townships from our provincial riding of Victoria-Haliburton. Dalton and Carden Townships especially have historic roots, having been a part of the first riding of Victoria North in 1867. Manvers Township has been proposed to be included with Durham East. This area has been a part of our riding since 1974 when they were excluded from the Regional Government of Durham. The fact that they were included with Victoria shows they have more in common with us than a larger urban area. I was pleased to hear the Chairman, Mr. Justice S.H.S. Hughes, indicate he will take a new look at putting Dalton and Carden back with Victoria-Haliburton. Although no indication was forthcoming with regard to Manvers, I will continue to fight to have Manvers remain with us provincially.

I am appreciative of those who attended personally and supported my presentation. I

mention especially Reeve Harold Bruce, Trustee Margaret Stewart, Harvey Malcolm and Arthur Rowan, and Ivan Reynolds. I have also been notified of letters of support from Victoria County, Carden Township, Manvers Township, Dalton Township and Victoria County School Board.

I will keep you informed of the Commission's final report.

### Quebec Assembly Shooting

I, like everyone else, was shocked and saddened by events in the Quebec National Assembly. As a result of the shooting, security has been tightened and there is a possibility that metal detectors may be installed at the Ontario Legislature. The Premier described the shooting as "almost beyond comprehension" and said he would not stand in the way of a recommendation to install metal detectors, although he would personally regret their introduction. Liberal Leader David Peterson expressed concern that members of the Legislature might over-react and

go too far in implementing new security precautions. He does not want to turn the Legislature "into an armed fortress", and expressed his confidence that the Board of Internal Economy would review security arrangements "in a balanced and thoughtful way". The Premier and both Opposition Leaders sponsored a resolution conveying to the President of the National Assembly "heartfelt concern and sympathy...over the loss of life and injuries sustained by those dedicated men and women who have been servants of that House" and recognizing and saluting "the Sergeant-at-Arms of the Quebec National Assembly for his selfless and courageous action to prevent further loss in the face of grave danger." While a security review is in order, I personally hope we do not over-react and make our institutions a visible armed camp. I hope we can keep them as open and accessible as possible.

## Bill Scott M.P.

With the summer months fast approaching, my offices have received several requests lately for information on the Canadian Home Insulation Program (CHIP). This Program is designed to encourage Canadians to insulate their homes, save money, and at the same time reduce Canadian energy demand. It has proven to be very helpful to many of my constituents.

After some pressure from my Party and homeowners in general, the Minister changed the CHIP Program in March of this year, to allow homes across Canada built before September 1, 1977 to qualify for the Program grants. In Ontario to be eligible, a structure now must:

- a) be a principle residence
- b) be no more than three stories high
- c) have been built before September 1, 1977

The basic taxable grants will pay up to \$500 for 60 percent of the material costs for householders who complete the insulation and draftproofing themselves, or 60 percent of the combined material and labour costs for improvements completed by a contractor listed with the Canadian General Standards Board (CGSB). CGSB listed contractors will certify to their clients that their work complies with national standards.

Improvements eligible for CHIP assistance include the insulation of attics, exterior walls, basement walls and floors over unheated spaces as well as draftproofing of the home by the installation of weatherstripping and caulking material.

To receive a free CHIP Applicant's Guide, you should call their Ontario Regional Office at 1-800-268-1818. I urge you to take advantage of this assistance, as it is one of the few programs of real help offered by this government.

I had the pleasure of attending the Annual

## More letters to the Editor

from page 4

6. "The sharp drop in surface to the North appears to have a strong influence on the direction of the migration of the contaminants." It is to the North, Mr. Editor, that the lake waters of the Kashagawigamog-Canning chain are closest to the dump. I reckon this to be about 200 metres. The government calls it 300. One leachate flow, or "plume", travelled through sandy soil 3,000 metres according to the "Ground Water" text book.

7. The Ministry report found that if it were not for 125 metres of narrow wetland which filters the contaminated leachate spring discharges these contaminants would reach Canning Lake unchanged. As it is they emerge on the lake side of the swamp in what is called "minor impairment."

The experts tell us garbage does not disappear, except to the view, when it is buried in the ground. It continues as a collection of buried and polluting substances which continue to poison both ground water and surface water and the immediate air with methane gas. This can go on for many years. A refuse dump from Roman times is still producing leachate.

Further use of this site will mean an ever larger buried mountain of refuse. The Ministry reports it is now producing leachate that is contaminating surface waters entering our lakes. No control is present or contemplated to preserve the "narrow wetland" of 125 metres length which is now the sole barrier to undiluted leachate entering Canning Lake. This tiny wetland itself is likely to fall victim to garbage infill over the course of time.

Based on this evidence by competent hydro-

geologists I personally disagree with the Ministry of the Environment finding that there exists "an adequate buffer zone to protect any recreational waters". I disagree especially when the Ministry's own report says that "as a precaution it would still be advisable to extend the buffer zone as far as the Ingoldsby Road." This is the area from the sharp county road curve up to and including the Ingoldsby Park and ball diamond. In spite of this caution the county is already extracting gravel in this "buffer zone" from a wayside pit east of the dump road. This will fly in the face of the government caution by depleting the buffer zone.

The Ministry also concurs that the Ingoldsby Dump "is not an absolutely ideal location for a disposal site."

In fact the Ingoldsby Dump is a potentially dangerous, badly located garbage disposal site in a highly vulnerable area.

My suggestion is that it be relocated outside the direct watershed area and vicinity of Canning Lake's watershed before the dump enlarges itself further and its leachate discharges increase. There is no shortage of sites which would be far superior to the present one and on whose location all the new, technical know-how could be applied to ensure its safety. The move can be made easily. Unfortunately the thirty years of garbage now in the ground nine feet deep cannot be removed. It is a permanent heritage. Its leachate will stay with us and be willed to our grandchildren.

Yours truly,  
Jos. A. Curtin  
Ingoldsby

## From the Chamber

"You Can't Take It With You" was an appropriate title for the Highlands Little Theatre latest production, (all profits from the three performances will go to the Toronto Hospital for Sick Children). The Theatre group hopes to be able to donate a healthy cheque to the Sick Kids as many people volunteered time, materials, help or money. The cast of 18 was the largest yet and of course many more worked behind the scenes to produce the well attended and appreciated play. Small children the audience were very attentive on large foam mattresses set up especially for them front row and centre.

Newcomers to Haliburton might be interested to know that the group consists of a wide variety of occupations and professions, i.e. school teachers, carpenters, policemen, housewives, dentist, psychologist, resort and restaurant owners, etc., and are always looking for more members to join the group. For information, please call president Caryl Douglas at 286-3115.

The next production in the fall promises more surprises.

The actual proceeds being forwarded to the Hospital for Sick Children will be announced as soon as the figure is available.

In the Ministry of Natural Resources' latest publication of "The Raven" from Algonquin Park there is an article on the charitable organization formed in June 1983, "The Friends of Algonquin Park" which is dedicated to furthering the educational and interpretive programs of Algonquin. The idea has been successful for over 60 years in the U.S. and for 10 years elsewhere in Canada but is a first for an Ontario provincial park. The basic principle is that a groups of private citizens form an incorporated association which undertakes to raise money for a park through the sale of park-related publications and other items.

Annual budget cuts were making it difficult to maintain the Park's award winning publications, but "The Friends" took over the financial responsibility for reprinting.

Because the Park did not have to spend \$20,000 on printing, it was able to replace entrance signs, boardwalks and upgrade their audiovisual show at the Park Museum.

The Friends have generated enough profit already (in less than a year) to construct a book store in the lobby of the Park Museum with a line of natural and local human history titles. The profits will enable The Friends to do more improvements in the future.

The 12 member, volunteer Board of Directors will keep you informed of their activities and give you a 15% discount in the new bookshop for a small membership fee which is a contribution to the Park as well - "They need a lot of help from their friends." Drop in at the Park Museum or write "The Friends", Box 248, Whitney, Ontario, K0J 2M0.

There are many visitors to the Highlands and some residents as well who do not realize the distance to which the Park extends into Haliburton and what a natural attraction it is to our area.

From the Bicentennial office in Peterborough comes the announcement that Nordair is sponsoring the "Ontario Bicentennial Town Crier Festival and Cry-Off".

Communities across the province are being encouraged to have a local crier who would represent them in the festival and also assist with events at the local level. The festival for the Central Area will be held in Peterborough near the end of June. The winners will go on to compete in the provincial Cry-Off in Ottawa at the end of August.

This year, 1984 medals will be awarded to volunteers who have made a valuable contribution to their communities.

Individuals and voluntary organizations who wish to make a nomination may do so on a special nomination form, available by writing to Executive Secretary, Bicentennial Awards Committee, Box 1984, Queen's Park, Toronto, Ontario M7A 1N3.

Submissions close June 30, 1984.

Peterborough has produced a Bicentennial Commemorative coin this year featuring a profile of Sir Sandford Fleming which looks very similar to our own coin featuring Chief Justice Thomas Chandler Haliburton. Incidentally we still have some of our coins left and we find visitors to the County appreciative of being able to get them at the original sale price of \$1.

Still on the Bicentennial Bits update, we were lucky here at the Haliburton Chamber not to have had the job that the Campbellford-Seymour Chamber had. They were confronted with finding an elephant to lead their Bicentennial Parade. The costs were offset by holding a 50-50 draw to guess "Buki's" weight.

Printing - Since we discontinued our printing service a few weeks ago, there appears to be some confusion as to what to do in the printing area.

We will still do your photocopying at .25 for members and .30 for non members.

We will still cut stencils from Monday to Friday at a cost of \$3.50 each (a clean copy must be provided by you.)

We regret that we are unable to provide a typing service for our members, time simply does not permit it.

*The Echo Real Estate has it all*

# Sports

The boys basketball team from HHSS lost by just two points in the deciding game of a recent tournament in Mariposa. Team members are, front row, from left: Drew Mitchell, Ben Storey, Barry Miscio, Sheldon

Perry, Colin Hunter, Chris Youngdale. Back row: Jamie Bruce, Vic Woods, Erin Nicholls, Jaro Cooper, Ron Perrin, Mr. Hoare.

## HHSS team does well, 39 members advance

Haliburton high school's track and field team are enjoying their best season ever, finishing third out of 20 schools in the Kawartha track meet in Peterborough last Thursday and qualifying an unprecedented 39 competitors for the central Ontario finals to be held in Oshawa this Thursday.

Haliburton's third place finish in the Kawartha meet, behind St. Peters, who took first, and Cobourg West who were second, gave the local school its sixth straight Kawartha 'A' schools title.

HHSS team members will participate in 37 events at the COSSA meet in Oshawa. The first four finishers in each event will advance to the Eastern Ontario regional meet to be held in Ottawa on Saturday, May 26.

COSSA qualifiers from

HHSS are:

**Midget Girls**  
Lesley Tashlin - 1st, 80M Hurdles (12.6) Record; 1st, 400M. (1:02.3); Lindsey Tashlin - 3rd, 3000M.; 400M Relay Team - 1st (Lori-Anne Dugual, Lisa Sisson, Lindsey Tashlin, Lesley Tashlin)

**Junior Girls**  
Marilyn Walker - 2nd, Shot Put; Emma Postlethwaite - 3rd, 400M Hurdles; Miriam Smith - 4th, Discus; Lorie Valentine - 4th, Long Jump.

**Senior Girls**  
Marla MacNaull - 2nd, 400M; 2nd, 200M; Julia Holiday-Rhodes - 2nd, 400M Hurdles; Karen Gillespie - 3rd, 100M Hurdles; Kathy Walsh - 3rd, Discus; 400M Relay Team - 2nd (Lisa Malott, Lisa Jones, Wendy Ballantyne, Marla Mac-

Naull); Open Girls 1600M Relay Team (1st), 4:18.6 (Lesley Tashlin, Lindsey Tashlin, Heidi Tashlin, Marla MacNaull).

**Midget Boys**  
Sean Whitfield - 1st, Discus (33.06); 2nd, Javelin; Tom MacLeod - 2nd, 100M Hurdles; Danny Johnston - 3rd, Shot Put; Jeff Popple - 3rd, Discus; Kevin Barnhart - 3rd, Pole Vault; Gord Wood - 4th, Pole Vault.

**Junior Boys**  
Drew Bishop - 1st, Pole Vault (2.85); Paul Milne - 2nd, 3000M; 3rd, 1500M; Shawn Symonds - 2nd, High Jump; 4th, Discus; Kevin Smith -

2nd, 400M Hurdles; Rob MacLeod - 3rd, 400M Hurdles; Greg Pearson - 4th, 110M Hurdles.

**Senior Boys**  
Steve Smith - 1st, 110M Hurdles; Lyle Coghlan - 1st, Shot Put; Mark Carl - 2nd, 1500M; 3rd, 800M; Bernie Upton - 3rd, 400M; Brad Chambers - 3rd, Discus; Terry Allore - 4th, Javelin; Danny Stiver - 4th, 2000M Steeplechase; 400M Relay Team - 2nd (Steve Smith, Kevin Warburton, John Dillon, Paul Vuksic); Open Boys 1600M Relay Team - 3rd (Bernie Upton, Steve Smith, Dave McKay, Paul Vuksic).

## Soccer team tested

**By JIM MILNE**  
The Dixie Lee soccer team lost a hard fought match with Gravenhurst last Sunday in Gravenhurst.  
The first half was scoreless because Haliburton sent only three men forward and plugged up their end of the small Gravenhurst field with four halfbacks and three fullbacks.  
Gravenhurst broke

through early in the second half and scored three times before Falk Flugel scored for Haliburton. The game ended with Haliburton down 3-1.

Dixie Lee will practise Thursday evening in Haliburton and play their first home game next Sunday. The team won't know who their opponents are until later this week.

## Trent Severn News

Winter has passed and spring too is going by quickly so that the summer recreation season is nearly upon us once again. A lot of water has passed by the locks, and through the control dams since our last newsletter in October 1983.  
A cold winter with plenty of snow early in the season changed abruptly in February due to a mild spell and much of the snow disappeared. Drier than average conditions in Haliburton followed and though most of the inflow was retained in the lakes they had only slowly reached an average of 88.5% by May 7. A widespread rain of some 25mm on May 8 would have brought the average over 90% by about May

11. Spring peak flows of the Gull and Burnt were lower than average and much lower than in 1983.  
This rain also affected the Kawartha and Rice Lake to cause them to overflow, so that the Lakefield flow which had been low for May at 43 m3/s was increased over the week to reach about 115 m3/s by Friday May 11. The normal flow for May is 108 m3/s. With the small rains predicted into next week (beginning May 13) we expect the Kawartha surplus to recede again to a safe level. The flow can then be reduced again to hold the lakes steady. Too high and outflow would result in delayed opening of the navigation season scheduled for Friday.

The HHSES girls basketball team lost by eight points in the final of a tournament in Mariposa recently. Team members are, front row, left: Sue Long, Heidi Nicholson, Alison Bain, Kris Roberts, Kim Roberts,

Shannon Mintz, Beth Johnston. Back row: Mr. Clarke, Rosemary Maher, Jody Roberts, Jodie McKnight, Lorie Blackburn, Brandy Grundstrum, Kim McCracken.

## Dysart will sign a fire agreement with Glamorgan

from page 3  
will respond with fire trucks only, ending any pressure for firemen to commandeer boats.

The new agreement will set an annual standby fee of \$400, as well as hourly rates that will be charged to Glamorgan when Dysart et al men and equipment are called to a blaze.

## Curlers get trophies at annual banquet

Some of Haliburton's top curlers were honoured Saturday night as members of the Haliburton curling club got together at Deer Lodge for the annual year end banquet. Trophies were presented to the rinks who finished on top in regular season playoff action.

In the ladies division, the rink of Emily Larue, Marilyn Kuno, Bernice Ross and Ruth Schell received the Beall trophy for finishing in first place in season play. The rink also went on to victory in the playoff round, earning the Curry Trophy.

Division 'B' playoff winners were the rink of Jean Collier, Helen Burk, Betty Whiteway and Betty Mills.  
Top curlers throughout the regular season in men's league play were the rink of Jim Scheffee, Paul Wilson, Brent Collier and Glen Carter, who were presented with the Hughes Trophy.

Playoff winners were the rink of John Wilson, John Beachli, Grant Wallace and Jamie Bain, who were presented with the Gilliam Trophy.

Mixed league schedule and playoff action produced five trophy winning rinks.

Winners of the 7 p.m.

Tuesday schedule and the Beachli Trophy were Gary Bailey, Helen Burk, Gord Woolsey and Betty Whiteway.

A second Beachli Trophy was presented to the winners of the 9 p.m. Tuesday schedule: Ray Scott, Jean Collier, Mike Wood and Bill Picard.

The Elstone Trophy for a first place finish in Friday night mixed league play went to the rink of Ken Wilson, Emily-Larue, Murray Kuno and Marg Wilford.

The Bank of Montreal Trophy for victory in the playoff round was presented to the rink of Brent Collier, Sheila Popple, Warren Douglas and Barb Schellenberg.

Division 'B' playoff winners were the rink of Carl Wallace, Sandra Oakley, Gary Burtch and Joanne Teskey.

A new slate of executives for the 1984-85 season was also chosen at the banquet. New president will be Bob Deremo, with John Wilson serving as past president next year.

Jim Holmes will act as vice president. Secretary is Emily Larue. Phyllis Woodcock will serve as treasurer next season.

# If It Cost You \$1,000 Would Your Insurance Pay ...

**\$1,000...**

**or \$700...**

**or \$500...**

**or...**

When many people insure their personal belongings they make the mistake of believing that they are covered for full replacement value. Sadly that's not always the case. Some policies will only pay out a fraction of what it would cost you to replace your possessions at current market value.

To find out where you stand you should talk to one of the I.B.A.O. insurance brokers listed below.

**Is there a difference between an I.B.A.O. broker and an agent?**

Yes there is. An agent works directly for one insurance company.

An I.B.A.O. broker is independent and unbiased.

Your I.B.A.O. broker shops around for value, recommends the right coverage at the right price and makes sure your interests are professionally represented when you need to make a claim.

So call your broker and ask if he or she is a member of the I.B.A.O.

**There's More To Insurance Than Just a Policy**

Call the I.B.A.O. broker in your neighbourhood.

THE HALIBURTON COUNTY ECHO AND MINDEN RECORDER

The annual CGIT mother and daughter banquet was well attended. Among those who took part were, from left: Eleanor Holmes, leader, Tina Bailey, Nora

Morrison, Marcia Burk, Beth Burton, Alison Bain, Jennifer Pearson, Laurie Salvatori.

CGIT members who attended a year end banquet in Haliburton Monday included from left: Donna Bailey, leader, Lori Guguay, Renee Curry, Lisa Miller,

Melissa Creelman, Miriam Smith, Shauna Pearson, Gina Brohm.

## Senior League

**By BERT HARRISON**  
Well readers, as we start another week, let us start it with a smile; when the sun is shining, it makes life worthwhile.  
A lovely service was held in the chapel Sunday night, right from the start. Owing to family trouble the Thompsons were not there to take their part. The music was played by Margaret Sisson, who did a very fine job. I wish you could have been there to listen. It was so nice to have the Brubachers there. Rev. Amos read the scripture and also led in prayer. Then Rev. Burgess spoke on Paul asking the Lord to take the thorn from the flesh from me. But the Lord said, "No, my grace is sufficient for thee."

Monday morning down at Fun and Fitness Amelia Good won the game we played, for all to witness.  
Pat Ackerblade said to me one day, "You know, we might be kissing cousins. I have relatives with the name of Harrison. I have them by the dozens."  
It is now about Marie Baker I would like to speak. She shops for the residents here five days a week. Nothing for Marie is too much trouble. If you want her to take a shopping list, she is right there on the double. Now she does all this with the cutest little smile, just to oblige us she walks many miles.  
Rev. Wicks, of Minden Gospel Church, conducted the Tuesday service in the

Chapel. He had an interesting story to tell, how Jesus met the Samaritan women at Jacob's well. Fred Ballard came with music to play. We can always depend on Fred, unless he is away.  
Instead of the Quiz Game Tuesday afternoon, Doris showed us some interesting movies, 'Fun Factory', in which we laughed our fill, then 'Jellan Jellan' and 'Mack's Mill'.  
The ladies are working in the craft room, keeping everything up to par, making different items for their next bazaar.  
Wednesday night, to Hyland Crest, Earl Cooper, he did come. He not only brought along his lovely wife but also his daughter and son. Cathy couldn't come.

With Earl on the fiddle, Andy playing the piano, Gordon the sticks and me the harmonica, we really made things hum. Then Eleanor played the piano and Earl the mandolin. We always look forward to when they come again.  
We have a new resident, Lily Hogg, come to Hyland Crest. We hope she'll like it here, we're sure she'll fare the best.  
This is Millie Wood's birthday, this 10th day of May. We hope many more will be coming her way. Her daughter, granddaughter and great granddaughter are coming which we think is great, to help Millie, her birthday to celebrate.  
The ladies from the Gospel Please turn to Page 22

CGIT members attending a mother and daughter banquet in Haliburton Monday night included, from left Sarah Stouffer, Alison Sisson, Jan Hie, Andrea

Burton, Shannon Currie, Gwen Cameron, Krista Rydman, Paula Brown, Kim Curry, Denise Debler.

## Northern Lights

By VIRGINIA MUENZEL

### CINDERELLA

Cinderella is the Princess. She rules over all other members of the family. When she passes by, her subjects make way for her. She is sleek of body, and grace personified. She has the stealth and slinkiness of a puma. Cindy, as she is known, is a cat.

For 13 years, she was a housecat. Lounging serenely in a sunny window. Her sparse outdoor-time was spent in a running pen, as we were close proximity to several super highways. Summers in Canada were also spent in the pen, for we were afraid she would be totally out of her element in the big outdoors.

Then we made the big move. For several weeks, we persisted with the pen. But she wanted out. If she wanted to go out with a bang it was her privilege. So we opened the gate of the pen, and she was off.

For the first few days, she didn't wander far. After all it takes a long time to sniff every square inch of five acres of land. Isn't it uncanny how they know exactly where their boundaries are? Then, one day, she was out for hours. I called and called with no results. I was sure I had lost her. Suddenly, I heard what sounded like a muffled "Meouf, meouf." There was Cindy, strutting up the driveway, and quickly up the stairs. "Meouf, meouf" all the way. She was talking funny, cause her mouth was full. "Meouf, meouf," means, look what I've got. Upon opening her mouth, I discovered amongst the straw and pieces of dead leaves, a tiny baby mouse. Her very first trophy. She was so proud of herself, that she kept up this routine for days. Each time, apparently not taking a chance on losing her prey, she grabbed mouse, straw and all.

Until one day, she came running home with her usual announcement of achievement, only to be utterly humiliated. When she emptied her mouth of its contents with the usual "peth, phooey" she had caught nothing, but a mass of straw. She was so totally disgusted with herself, you could almost hear her muttering under her breath.

Cindy loved the new house. After all, when we moved in, it was wide open. The insulation wasn't even up in the ceilings. The Princess is a jumper and climber. She would spend hours parading around up in the rafters. No one could come near her. (She always has been slightly above us all). When Ed began to install the insulation, Cindy showed her displeasure quite directly. He was almost finished in the bedroom. Just stapling up the last of the vapour barrier, when suddenly the staples started popping out. So he redid them. Once again, out they came. Then down came a whole section of insulation, vapour barrier, and screaming black fur.

Please turn to Page 22

Trying out an oxygen mask at Haliburton Hospital was a new experience for many Grade 2 youngsters who toured the facility on Thursday. Helping out is nurse Lynn Johnston.

### Rainbow trout placed in Gull River by Minden BIA

from page 2

the stocking of the Gull River is "basically an on going thing." Fish were also put in the river last year, he said.

Dave Atkinson, supervisor of fish and wildlife for the Ministry of Natural Resources in Minden, said the fish released into the river will remain there, although some may go down stream into Gull Lake. The trout may try to swim upstream, but will be stopped by the hydro dam and therefore kept in the area, he said.

This year, the Ministry of Natural Resources released 2,000 rainbow

trout into Minden Lake and 1,000 into the Gull River. It is becoming more expensive and difficult to stock local lakes Atkinson said, adding, "It's nice to see private business get involved." An increase in the number of fish in the river will bring more people into the area, he said.

Although there has been evidence of breeding in the gravel by the highway bridge, Atkinson said there is little reproduction by trout in the river, and referred to the Gull River as "mostly a put and take fishery."

## Home Support News

By MARIE WALLACE

One of the purposes of the Haliburton County Home Support Services is to create in the community an awareness of the process of aging and the needs of the elderly and to inform all the residents about the services provided by volunteers to assist seniors to remain independent in their own homes for a longer period of time.

In order to accomplish this, we recently had the opportunity to visit five grade 6 classes and spend

about 40 minutes in each class explaining to the students the programs provided, e.g. Meals on Wheels, Transportation, Friendly Visiting, Fone-a-Friend, and Home Help. We also inform them about the Vials of Life, the Cold Air Masks, and the Information Centre which is for the residents of all ages.

The students are encouraged to be friendly with seniors and become a volunteer by assisting with shopping, gardening, etc. and to visit them. I was most impressed with the interest and

concern these pupils showed in helping senior and disabled persons.

Next spring two volunteers will carry on this information sharing with the grade 6 students; Eleanor Holmes will speak with the three classes in the Haliburton School and Eddie Sedgewick will visit the two classes in the Minden School. Our thanks to these two capable ladies for carrying on this very worthwhile opportunity to inform the students about aging and the programs of Home Support.

## Information Centre News

By ANNA M. NICHOL

The winner of the game set for the Wagon Wheel, Wheels to Meals is Flo Dollo. The draw had taken place at the Wagon Wheel Restaurant. Proceeds will go toward the third anniversary (June 26) of Wheels to Meals.

At the Drop-In Centre - Our quilting bees continue every Tuesday from 10:00 - 3:00. Everyone is welcome to give a hand at the sewing. The Golden Fitness Program began on Thursday, May 10. It will continue every Thursday from 11:00 - 11:45. Please come, participate and you will feel great! On May 25, at 1:30 we will be viewing the film, "Walk Awhile In My Shoes" (27 minutes). This is a moving film in which we see how three handicapped individuals are integrated into society. Public awareness is a sensitive issue where people's attitudes require changing. A

discussion will follow the film.

The Drop-In Centre is located at the Haliburton County Home Support Services building across from

Emmerson Lumber. Our number is 457-2171. (Check the paper for the finalized schedule of the Ontario Senior Games to be Held June 6, 7 and 8.)

## Did you know?

By BAMBI GILDER

Did you know...that for several years the Canadian Foundation for World Development has been helping some of the poorest people in the world?

However, in order to do this, they urgently need your help in the collection of eyeglasses and hearing aids. These items are distributed to the Third World countries for the needy where they are supplied with the closest to fit their need and prescription. Thousands of hours go into determining the prescription of the glasses and hearing aids donated, numbering each one and storing them for quick selection once their voluntary optometrists, opticians and ear specialists are in the field. So if you have any old eyeglasses,

frames, lenses or hearing aids tucked away somewhere in your home, why not drop them into our office?

Words can't describe the joy and elation as each recipient has the privilege of discovering that he or she can now see clearly and hear properly. All this can be done with your help! For more information regarding this and many other subjects, why not drop in to your County Information Centre or give us a call at 457-2733. We are located in the Drag River Municipal Building (across from Emmerson Lumber) in Haliburton. Our office is open Monday through Friday, 10:00 a.m. to 4:00 p.m.

And remember, you will never know the answer until you ask the question.

## OPP to watch drivers

The Ontario Provincial Police will be on a full-scale alert this summer for drinking drivers according to a joint statement by Ontario Solicitor General George Taylor and OPP Commissioner Archie Ferguson.

The summer months of June, July and August are the worst time for accidents on Ontario highways. Deaths arising from traffic accidents also hit their highest counts in the summer months.

Accident figures have been tumbling steadily over the past five years, but according to Mr. Taylor, it is not the time for complacency.

"The OPP will be using a variety of different tactics to reduce impaired driving during the summer," said Taylor. "The portable breath-

testing device and the 12-hour suspension will be used to their fullest."

In a recent message to all 4,200 OPP members, OPP Commissioner Archie Ferguson said that the population in the OPP jurisdiction increases dramatically with the influx of visitors in the critical months of fine weather.

The OPP will be making a two-pronged attack on the drinking and driving problem. Enforcement of the Criminal Code will remain at the same high level as in the past few months, and a publicity blitz will be undertaken so that visitors to vacation areas will not be taken unawares by the positive enforcement being done by the OPP.

Commissioner Ferguson

said, "Let me make it plain. We don't want people drinking and driving. We don't have to put our lives in jeopardy by tolerating this sort of irresponsible behavior."

Solicitor General Taylor said, "This government is committed to reducing impaired driving. The police forces of Ontario will be doing their part by taking positive measures to convince the drinker to stay off the road."

The OPP now has 383 ALERT breath-testing machines which can be used to test drivers at the side of the road. If a driver fails the test, he is taken to the local OPP detachment for a breathalyzer test. A 'warn' reading on the machine will result in a driver's licence being suspended for 12 hours. Last year, the OPP used the licence suspension procedure 10,000 times.

## A Pinch of Sand

By H. JEAN BROWN

With all the brilliant sun many southern housewives dry their own fruit, apricots, peaches, pears and pineapple. However this can be a long process and our Canadian summers are not always that sunny. Most of these fruits are available in the supermarkets and serve to bring a taste of summer to late winter and early spring when we need it the most.

### Pineapple-Apricot Bread

2½ cups all purpose flour  
1½ tsp baking powder  
¼ tsp baking soda  
½ cup butter melted  
½ cup dried apricots  
¼ tsp salt  
1 egg  
¼ cup raisins  
¼ cup sugar  
¼ cup milk  
1 cup pecans  
1-8 oz. can crushed, undrained pineapple  
Combine flour, salt, baking powder and baking soda, set aside. Mix butter, sugar and egg, beat well. Add milk crushed pineapple, chopped apricots and raisins. Beat well. Chop pecans and stir into egg mixture along with flour mixture. Pour into greased loaf pan. Bake at 350° for 1 hour and 15 mins. Test for doneness. Place in pan on wire rack. Cool 10 mins. Remove.

### Baked Fruit Pies

2 cups mixed dried fruit (6 oz. pkg.)  
2 cups all purpose flour  
3 tbsps butter melted  
1 cup sugar  
1 tsp salt  
¾ cup shortening  
4-5 tbsps cold water  
Combine fruit and sugar in medium saucepan, cover with water, bring to boil. Reduce heat, simmer, uncovered about 1 hour until fruit is tender. Cool, mash slightly. Combine flour and salt, cut in shortening until mixture resembles coarse meal. Sprinkle with cold water evenly over surface, stir with fork to moisten, shape into ball. Divide pastry in half, roll each portion 1/8" thick on floured board. Cut 5 inch circles. Place about 2 tbsps of fruit on half of each circle, moisten edges and fold in half. Press edges to seal. Place on cookie sheet, brush with butter, bake 400° 15-20 mins. 12 pies.

## Cholesterol: get the facts

By LESLIE ORPANA  
Haliburton, Kawartha, Pine Ridge District Health Unit

Get the facts -- on cholesterol "I don't eat eggs" said the student, pouring cream into his coffee and spreading butter on his bread. "They're high in cholesterol and heart disease runs in my family". With that he bit into his sausage.

Many people such as this student associate cholesterol in food with the development of heart disease. Is there such a connection? Will eli-

minating foods that contain cholesterol prevent heart disease?

Food advertisers have taken up the 'great debate'. Manufacturers whose foods are low in cholesterol (vegetable oils, margarine) are quick to warn us of the dangers of cholesterol. On the other hand, producers of cholesterol containing foods (meats, eggs, dairy products) argue that there is no proof of the cholesterol-heart connection. Who should we believe? What do the medical experts say?

Let's start with the basics, to begin to understand the issue:

### What is cholesterol?

Cholesterol is an important fat in the human body. It plays a number of roles and is a normal constituent of the blood. It is a vital component of brain and nerve cells and is required for synthesis of certain sex hormones such as estrogens. In other words, cholesterol is a good thing! It is only when there is too much of it and the body cannot dispose of the excess that it becomes a problem.

### Where does cholesterol come from?

Surprisingly, most of the cholesterol in your body is made within the body itself. About 1/3 of total body cholesterol is provided from food. Since plant foods do not

normally contain cholesterol, animal products (meat, dairy foods) supply most of the dietary cholesterol. The chart below compares the amount of cholesterol made by the body to that absorbed from food (based on averages for the general population).

### Why the confusion?

Over the years there has been a great debate among researchers over the relationship between high cholesterol levels in the blood and heart disease. The study of cholesterol and heart disease is like a huge jigsaw puzzle. Many "pieces" are still to be found. For example, we don't know exactly why some people have high blood cholesterol. Do they make too much cholesterol? We don't know precisely

## Sensible diet reduces cholesterol risk

from page 10

what happens to cholesterol as it travels through different parts of the body. Heart disease itself is hard to study because it has so many contributing factors (e.g. physical activity, smoking, dietary fat intake) must be unchanged in the study group.

A lot of research people are working on the jigsaw puzzle and guessing on how the pieces fit. That's what we hear so many opinions and so much debate. The debate won't end until the puzzle is complete.

New additions to the "puzzle" create a lot of excitement. The latest study results were released in January, 1984. The 10-year "Lipid Research Clinics Coronary Primary Prevention Trial" provides strong evidence that cholesterol does have a role in the develop-

ment of heart disease. Subjects of this study were men with high blood cholesterol levels. The men who received a cholesterol lowering drug together with a diet moderate in cholesterol had a reduction in blood cholesterol levels and a 19% reduction in the risk of coronary heart disease. The study was not designed to assess directly whether a change in diet alone prevents heart disease but it does add support that it may be helpful.

### The Diet Dilemma

Should we change our diet now or should we wait until all the evidence is in? That's the dilemma facing nutritionists. Therapeutic diets will lower cholesterol in people with high blood cholesterol levels. However, there isn't sufficient evidence to recommend that the population at large should severely restrict

their intake of eggs, shellfish or organ meats; they should aim for a diet moderate in total fats. The total composition of a person's diet should be evaluated, not just one dietary ingredient (such as cholesterol).

Nutritionists are encouraging moderation, not martyrdom, when it comes to eating. To ease into a lower fat diet, try the following:

- choose low fat milk and milk products.
- count the number of times this week you've had fried foods (french fries, donuts, fried chicken, egg rolls, etc) and aim to switch to baked or broiled alternatives.
- meat should contribute to

your protein needs and not be used to "fill up on". Check portions sizes (2-3 ounces a serving will suffice). Large serving sizes contribute to excessive dietary fat intake.

• watch for hidden sources of fat such as baked goods, pastries, granola, ice cream, sauces, gravies and luncheon meats.

The student mentioned at the beginning made a common mistake. A single food can neither cause nor cure heart disease. Many aspects of the diet must be considered in the complex puzzle of cholesterol and heart disease.

## Naturalists

from page 7

snakes in mid August. In late September, the return migration takes place.

To naturalists, the annual garter snake gathering is a natural wonder. Tourists also arrive in increasing numbers both spring and fall. A few local families have also earned part of their livelihood for many years by capturing and selling *Thamnophis sirtalis parietalis* (the snakes) to dealers who distribute them south of the border.

Fortunately this growing interest and pressure is it seems no immediate danger of threatening the resource. The Narcisse wildlife management area includes a goodly number of the snake pits and prohibits any removal of the reptiles. So nearby Inwood should be able to keep billing itself as "The Garter Snake Capital of the World" for many years to come.

## Report from Parliament

from page 5

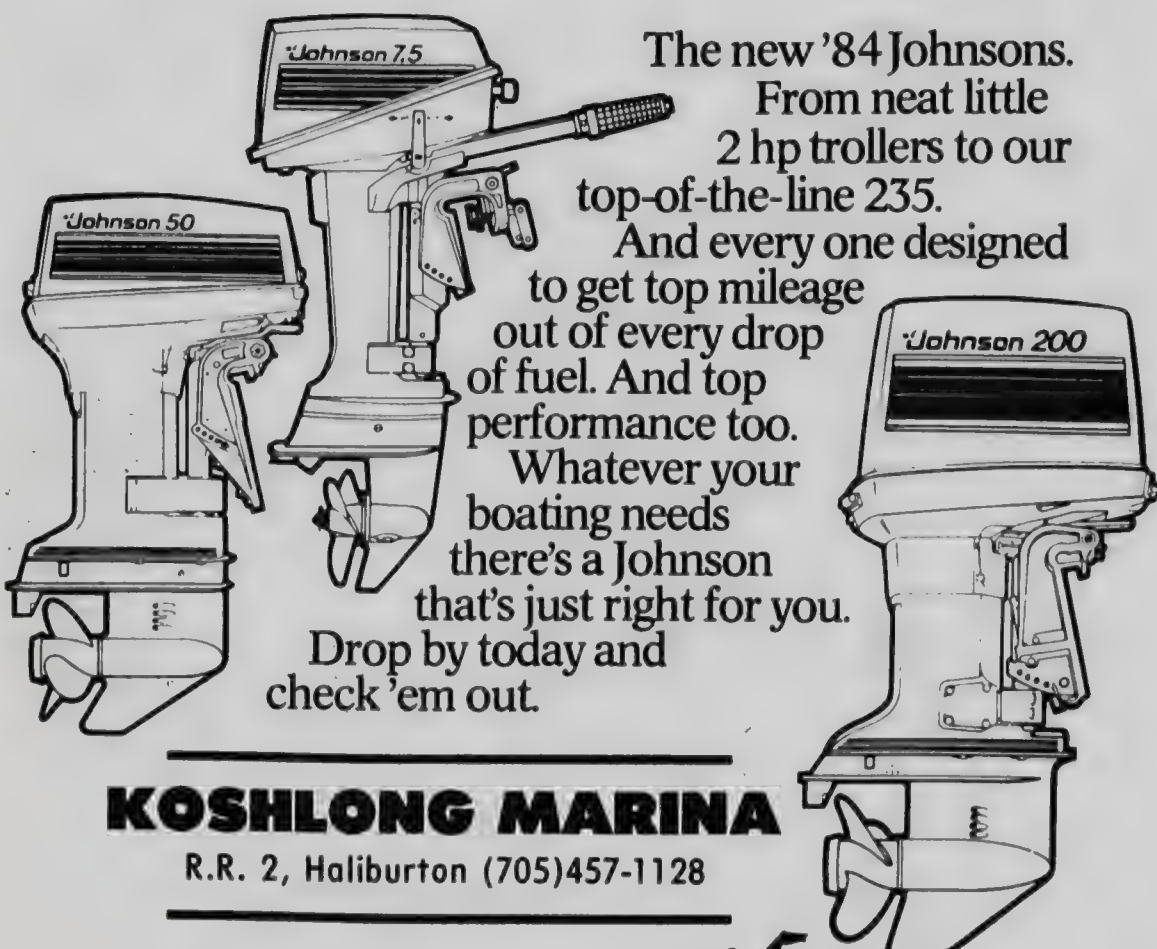

Meeting of the Lindsay and District Trapper's Council on May 5. A lengthy discussion on the future of the fur industry in Canada highlighted the event. President Blaine Alsop and an enthusiastic crowd of members are to be congratulated on the success of the efforts of the Council.

Ever since the Prime Minister resigned earlier this year, very little has been accomplished by the House of Commons. Rather than attack the problems of the country, the members of the government benches have chosen to take sides and attack each other. In this time, interest rates have slowly begun creeping up again and nothing is being accomplished in the direction of reducing unemployment, a still dominant problem affecting Canadians. After passing the Canada Health Act, Amendments to the Income Tax Act and some unnecessary Supply Bills, the government slowed down the debates on other legislation. There is even talk that the government will recess early in June so that they won't be tied up during the liberal leadership convention.

On May 2, I participated in the debate on Bill C-7, An Act to Amend the Customs Tariff Act. This bill's purposes are: to provide for tariff reductions for goods from developing countries; to give authority to double the limit on goods that may be brought back into the country by Canadians travelling abroad; to extend the expiry date for the General Preferential Tariff to June 30, 1994 from June 30, 1984 and to make administrative changes to the Act. The government had asked our party to pass this and a group of five other bills on that day at second reading without debate. On looking at Bill C-7, our party felt that these bills should at least be discussed before giving a blanket approval.

I have had several firms in the constituency which have been adversely affected by Anti-Dumping Tribunal decisions in the past couple of years. I, therefore, suggested during the debate that, in further consideration of duties and tariffs, the government should review the operation of the Tribunal to insure that it is acting in the best interest of local Canadian firms.

HALIBURTON COUNTY BOARD OF EDUCATION

1983 FINANCIAL STATEMENT

TO THE HALIBURTON COUNTY BOARD OF EDUCATION

We have examined the Balance Sheet of the Haliburton County Board of Education as at December 31, 1982 and the Revenue Fund Statement of Operations and the Capital Fund Statement of Operations for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these Financial Statements present fairly the financial position of the Board as at December 31, 1982 and the results of its operations for the year then ended, in

accordance with the accounting principles described in Note 1 to the financial statements applied on a basis consistent with that of the preceding year.

| Capital Expenditures from Revenue Fund | 34,841     | 67,120     |

NOTES TO FINANCIAL STATEMENTS

For the year ended December 31, 1983

1. ACCOUNTING PRINCIPLES

The financial statements have been prepared by the Board using accounting principles that are prescribed by the Ministry of Education and are considered appropriate for Ontario School Boards. These principles are in accordance with generally accepted accounting principles except as follows:

[a] Accrual Accounting

Revenue and expenditure are accounted for on the accrual method except for:

(i) No provision is made for interest on unmatured debenture debt from the date of payment to the end of the fiscal year.

(ii) No provision is made to record the liability for retirement and/or sick leave benefits accruing over the working lives of employees.

[b] Fixed Assets

Fixed Assets are charged to current expenditures unless financed by long-term debt. Principal and interest charges on net long-term liabilities are included as expenditures in the period due. Fixed assets including Capital Leases, described as Capital outlay to be recovered in future years, are included on the balance sheet only to the extent of the balances of the related net long-term liabilities outstanding and of the related temporary financing at the end of the fiscal year.

[c] Reserves and Reserve Funds

Reserves and Reserve Funds represent funds appropriated for general and specific purposes and are charged or credited to revenue fund operations in the year appropriated or drawn down.

[d] Under/over requisition of Taxes

The difference between the net expenditures of any year and the amounts received to finance these expenditures is carried forward to the subsequent year to either increase or reduce the net revenue requirement from ratepayers.

2. RESERVE FOR WORKING FUNDS

The reserve for working funds at December 31, 1983 is applicable to the elementary and secondary school operations of the Board as follows:

|            |           |
|------------|-----------|
| Elementary | \$113,500 |
| Secondary  | \$186,500 |
|            | \$300,000 |

3. RETIREMENT GRATUITIES PLAN

Under the retirement gratuities plan, unused sick leave can accumulate and employees after a certain period of employment (teaching staff - 10 years, non-teaching staff - 5 years) may become entitled to a cash payment of 50% of the unused credits to a maximum of 50% of annual salary when they leave the board's employment.

These accumulated days, to the extent that they could be used to determine the cash payment to an employee on terminating, amount to \$1,394,000 as at December 31, 1983 (\$1,231,000 as at December 31, 1982). No provision has been made on account of the retirement gratuities plan.

The amount paid in the current year in respect of the retirement gratuities plan was \$90,851 (\$16,845 in 1982).

4. NET LONG-TERM LIABILITY REPAYMENTS

Of the net long-term liabilities outstanding of \$1,032,000 principal amounting to \$622,000 plus interest amounting to \$296,658 is payable over the next five years as follows:

|      | Principal  | Interest   | Total      |
|------|------------|------------|------------|
| 1984 | \$120,000  | 77,430     | 197,430    |
| 1985 | 128,000    | 68,698     | 196,698    |
| 1986 | 124,000    | 59,355     | 183,355    |
| 1987 | 120,000    | 50,160     | 170,160    |
| 1988 | 130,000    | 41,015     | 171,015    |
|      | \$ 622,000 | \$ 296,658 | \$ 918,658 |

5. DEBT CHARGES AND CAPITAL LOAN INTEREST

The Revenue Fund expenditure for debt charges and capital loan interest includes principal and interest payments as follows:

|                                             | Elementary | Secondary |
|---------------------------------------------|------------|-----------|
| Principal payments on long-term liabilities | 99,000     | 12,000    |
| Interest payments on long-term liabilities  | 83,135     | 2,375     |
|                                             | \$ 182,135 | \$ 14,375 |

## PineStone plans new conference centre

### Renovations to lounge completed, 18 hole golf course almost a reality

PineStone Inn is preparing for yet another expansion, one that will substantially improve the resort's ability to host corporate meetings and conventions. Work is expected to begin later this month on a two storey conference meeting room that will seat up to 250 people. The 50 feet by 60 feet structure, to be added to the eastern end of the inn, will include expanded kitchen facilities, a snack bar opening to the outdoor patio and pool, a small open courtyard, and a lower floor that will be used as a games and recreation area.

Wren Blair, president and general manager of operations for the resort, said the expansion will cost an estimated \$650,000. Glen Blair, a partner in the resort, will act as general contractor, with local tradesmen expected to carry out a portion of the work. The addition is expected to be completed by September.

Wren Blair said the conference room is part of ongoing expansion plans for the inn, and is "badly needed". It will allow PineStone to attract "a number of additional conferences" that it has not been able to serve in the past.

The new structure will be "very deluxe" Blair said. It will be finished with elaborate pine woodwork and panelling of the same design as the walls in the recently expanded dining room. As well as providing private meeting and dining space for corporate conferences, the new room will enable individuals and community groups to hold parties and banquets without disrupting the atmosphere for customers in the dining room.

At the same time as plans for the conference centre were made public on Tuesday, Blair also announced

the official opening of the newly renovated lounge area at PineStone. A brass plaque was unveiled designating it as "The Golden Slipper".

"It recreates a famous old name in the community" Blair said. The original Golden Slipper, a dance hall on the north shore of Lake Kashagawigamog, had fallen into disuse before it was purchased by Blair and Jim Gregory. It was subsequently demolished in the early seventies as part of the plans that led to the creation of the present PineStone Inn complex.

Because Blair and Gregory owned the former slipper property, and because the old dance hall is remembered fondly by many local residents and visitors to the area "we feel we're the ones who should recreate the name" Blair said.

Eventually, he said, the dining room at PineStone will be officially named as well.

The new conference centre and renovations to the lounge area are part of a long term plan that will eventually see PineStone expanded from its present 70 rooms to approximately 130 rooms. Recently, four chalets were completed, two single and two double units that include kitchen and living room facilities, and bathrooms with Jacuzzi tubs. These have proved popular with senior corporate executives attending conferences, as well as with couples looking for privacy in vacation accommodation.

Work is also nearing completion to bring the golf course to a full 18 holes. More than a million dollars has been spent to create what Blair says will be "one of the nicest golf courses in the province", within the next two years. Grading and planting is underway on the final two holes, and new golf carts have been

purchased. A large and well equipped club house was completed last year, and have proved popular with

day users as well as with inn guests. The quality of PineStone's course, and its proximity to the inn, has

been an important factor in the success of a venture which began in the mid 70's, and which has shown

steady growth ever since.

## Kirchners' Jerseys top latest official ranking

### Careful breeding brings rewards

If quality rather than quantity is the determining factor, then Bud and Paula Kirchner are among the most successful dairy farmers in Canada. For the past 12 years, the Kirchners have been building and improving a herd of Jersey cows on 'Kirchesse', their Irish Line farm near West Guilford. Through a combination of hard work, skill and determination, they have shown that a small family farm can be economically viable in Haliburton County. And they have demonstrated to a host of doubters that a world class herd of Jerseys can thrive in the area's relatively harsh and unproductive agricultural environment.

Recently, the Kirchners' small herd of immaculately groomed and carefully nurtured Jerseys was ranked first in all of Canada by the National Jersey Association in two key categories - composite breed class average for milk production, and butterfat content.

The Association ranks all Jersey cows according to a predetermined average for volume of milk production, and its butterfat content. Careful monitoring reveals to what extent an individual animal exceeds or falls short of the average during its productive life. This year, the Kirchners' Jersey herd set all time Canadian records for the largest increase in the combined averages of volume and butterfat content, and for the individual category of butterfat percentage in the milk.

"Unofficially, we topped all of Canada for the percentage of protein as well," Bud Kirchner said in an interview at 'Kirchesse'. (The ranking is unofficial because only half of the Jersey herds in Canada were analyzed for protein content of their milk).

At shows such as the Royal Winter Fair, cows win prizes according to their physical attributes - how closely they approximate the 'ideal' Jersey or Holstein. But "production is the real nitty gritty," according to Kirchner, because the real value of a

Jersey cows at 'Kirchesse'

### Herd ranked among Canada's best

dairy cow is its ability to 'manufacture' milk.

"From the start, what we've been concerned with is breed class average (BCA) for butterfat, because that really is an indication of the quality or the nutritional value of the milk."

The average Jersey herd produces milk with five percent butterfat. Kirchners' animals test out at about six percent butterfat. The award winning breed class average, along with a high percentage of protein in the milk, means that the Kirchners' herd is producing what is arguably "the most nutritious milk in Canada."

Success such as the Kirchners have achieved is a matter more of science than of luck. Once a month, a government technician arrives at Kirchesse and spends 24 hours there, taking samples from each animal's morning and evening milking. The milk undergoes complex chemical testing, and the results are entered into a computer. A printout details the production of each animal, indicating volume, butterfat, protein and other key information. Although the testing program costs several hundred dollars a year, it allows the Kirchners to assess the attributes of each of their animals. Using this information, they can make decisions about breeding that will result in a steadily improving herd.

"A large portion of our business is selling breeding stock to other Jersey herders," Kirchner says. He spends at least an hour a day pouring over magazines and information sheets about Jersey cows in herds the world over. By purchasing semen from bulls whose offspring have shown desirable characteristics, and artificially inseminating their animals, the Kirchners have been able to achieve enviable results. A vial of semen can cost anywhere from \$2 to \$300. The Kirchners own scores of vials from bulls in Canada, Britain and other countries. It is stored in a liquid nitrogen tank in Lindsay, and is placed in cows by a technician who brings the semen to Kirchesse at the appropriate time.

Presently, the Kirchners are raising a Jersey bull for syndication. If the animal's offspring prove to be exceptional, his semen will be sold to other breeders, with the possibility of a substan-

## Science, hard work a winning formula

from page 14

tial return on the estimated \$3000 cost of raising him.

Embryo transplant is another highly advanced procedure that is being employed by the Kirchners to make their exceptional herd even better. In this procedure, a technician extracts a fertilized ovum soon after it reaches the donor cow's uterus. The ovum (or zygote at this stage) is then reimplanted in another cow which is in a receptive state. In this way, many cows can produce the offspring of an exceptional bull and cow. Future techniques may permit embryos to be cryogenically preserved and sold to other Jersey herders, just as the storage and sale of semen has become common practice.

## 'Wood chips and maple syrup'

Even the most sophisticated techniques will fail to produce a top herd if other conditions are not right, however. There are less obvious but no less important factors to be considered. Cows are sensitive to the personality of the herder. They must be kept clean, and given a pleasant environment in which to live. Food also influences the quality of a herd's milk. Other Jersey breeders who know of Kirchesse joke that the Kirchners' animals are fed "wood chips and maple syrup", since fodder crops are difficult to grow in this area. The truth is more prosaic. They are fed "a minimum amount of grain and no corn" Bud Kirchner says. Mostly, they thrive on hay. But the importance of "tender loving care" cannot be discounted, and the Kirchners provide that in abundance.

"Maybe it makes a difference whether you hand (the food) to them, or throw it at them" Kirchner says.

Owning a dairy farm is a labour intensive business. The hours are long and the returns modest. But for the Kirchners, raising cows and living in harmony with the land is a way of life that offers rewards which cannot be measured in dollars and cents. And if they have built one of the best Jersey herds in Canada, on some of the country's poorest land, it is because they have brought a rare combination of scientific knowledge, talent and dedication to the old fashioned concept of the small family farm.

Animals eat hay from feeders

## Agricultural News

### Sign up now for Weaning Weight

The Victoria County Weaning Weight program is underway for 1984.

This program is sponsored by the Victoria Cattlemen's Association as a service to cow-calf producers in Victoria and Haliburton Counties. A set of portable scales is owned by the Association, and these scales are used to weigh the calves of partici-

pating farmers at weaning time.

The actual calf weights are then "adjusted" to get a 200 day weight which can be used to accurately compare one calf and its mother with the next one. This helps the beef producer identify those cows which produce small calves, and select replacement heifers which are above average in growth.

The Victoria County Weaning Weight program started in 1983 with 24 farmers participating. A number of new participants have already signed up for 1984 but more can be accommodated. Participation is open to any member of the Victoria Cattlemen's Association or the Haliburton County Farmers' Association.

With calving underway on many beef farms, now is the time to get involved for this year. Participants need to have their cows and calves identified, preferably with ear tags, and the exact date of birth of each calf is recorded.

Further information on the program is available from the Lindsay Agricultural Office.

**Swine Sale Successful**  
The Kawartha Klassic Swine Sale held in Lindsay recently was very successful.

Please turn to Page 22

## Hydro suffers wind damages

The total damage to Hydro's Georgian Bay Region installations caused by last week's severe wind storm is estimated at between \$650,000 and \$700,000.

The storm which ripped through Georgian Bay Region from the southwest to northeast caused the most extensive damage to the 44 kV transmission system and rural distribution circuits. It was particularly devastating to the more heavily treed areas which experienced poles breaking and trees being blown into lines.

The longest outage lasted 18 hours, in the Minden Area when the Tory Hill Distribution Station experienced problems. Two thousand, one hundred customers were affected by this outage.

A total of 52 Ontario Hydro distributing stations and 31 municipal stations were affected at different times during the storm on Monday.

Approximately 71,000 rural customers and 50,000 municipal customers were without power throughout varying portions of the storm.

The storm demanded the attention of Area staff in eleven Georgian Bay Region Areas plus 70 additional Linemen and Foresters from surrounding Regions. Three helicopters were also brought in to assist with repairs.

In some instances, only temporary repairs were possible to restore power to some customers. Permanent repairs to Ontario Hydro lines will take a couple of weeks to complete.

While power has been restored to all customers who experienced an outage, more damage reports are expected as seasonal customers return to their cottages throughout the month.

## PineStone expanding

from page 13

complex is now about \$6.5 million. Revenues have increased from \$550,000 in 1977 to \$1.9 million in 1983, when the inn showed "a modest profit" for the first time, Blair said. Although 1983's profit does not represent a return on investment, it is "heading in the right direction" Blair said, adding that PineStone is "ahead of schedule on the profit picture" anticipated when the project was undertaken and "ahead of schedule in its acceptance as a major Ontario resort".

As well as attracting executives from major corporations for conferences and vacationers looking for a quiet retreat, PineStone is also used by the local community, providing golf, dining facilities, and excellent cross country ski trails.

In conjunction with major expansion projects, beautification of the PineStone property is continuing. New flower beds are being created, and a jogging trail has been laid out around the lake.

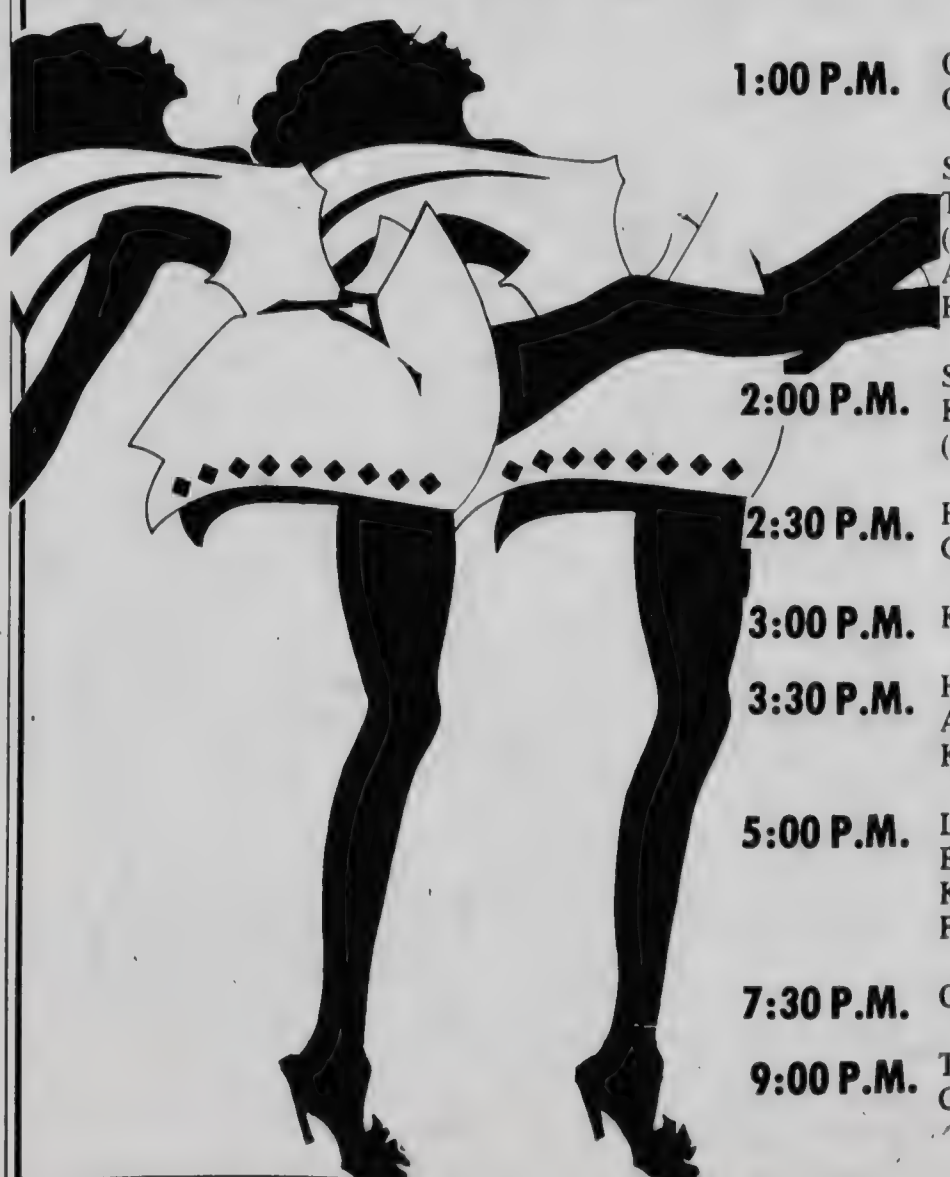

"Aesthetically, the things we're trying to create are coming together" Blair said.

THE HALIBURTON COUNTY ECHO AND MINDEN RECORDER

## Minden News

**By MAIZIE AUSTEN**  
There will be a bake sale on Saturday, May 19 at 10 a.m. on the Bank of Commerce lawn. Proceeds go to the Minden Figure Skating Club.

Anyone who would like to have a say in keeping such things as the Kanawa International Canoe Museum going in Haliburton County should get out and support the cause. The Haliburton Historical Society meeting will be held Thursday, May 24. Membership fees are only \$12 per year and can be mailed to Godfrey Tyler c/o Frank Wallace at the Haliburton Highlands Secondary School.

There are no hopeless situations, only people who have grown hopeless about them.

Don't forget there is roller skating every Monday, Wednesday and Friday at the Minden arena from 7 to 10 p.m.

The next Women's Institute meeting will be held Wednesday, May 16 at the Cultural Centre.

There will be an annual music night in the gymnasium at the Archie Stouffer Elementary School on Thursday, May 17. The entertainment begins at 7:30. The Grade 6, 7 and 8 students will be participating under the direction of their music teacher Glen Carter. It will also feature the Highlands Dixie Jazz group and the Track Four (a new barbershop quartet).

Minden BIA members' next meeting will be held Wednesday, May 23 at the Municipal office to discuss the 1984 budget, summer promotions and town improvements.

Haliburton is having its Spring Fling on Sunday, May 20 at Head Lake Park beginning at 1 p.m. There will be lots of interesting things to see and do. If the weather is bad they will hold it Monday,

May 21.

We had Mary-Lou, Carl and Jennifer Packard drop in for dinner on Mother's Day. The Minden Kinsmen Club are holding their May Fest Saturday, May 19 at 8 p.m. at the Minden Community Centre (upstairs).

Sincere sympathy to the family and friends of Morgan Harrison. Morgan died Wednesday night, May 9, at the age of 78. He left two daughters, one son and his brother Bert.

Pat and Bob Ackerblade, Wilfred and Phyllis Ackerblade, Bert Harrison, Shirley Warder, Carl and Rosalie Harrison and Hazel and Holly Harrison attended the funeral in Lakefield Friday, May 11.

Mrs. Harold Hogg is a new resident at Hyland Crest.

Robbie Ackerblade and David Lee of the Minden Minor Hockey have been asked to play on the PeeWee team in the tournament at Ops on the May 19 weekend. Good luck boys.

We had Mary MacDuff of Lindsay drop in for a visit last Saturday afternoon.

Sincere sympathy to the family and friends of Ivan Harrison.

If you have any news for me to include in this column please call 286-3607.

**Household Hint:** Candle wax - Scrape off the excess wax with a knife. Place fabric between blotters or paper towels and press with a warm iron. Remove any colour stain with rubbing alcohol or with bleach.

Charlie Palmer dropped in for a visit on Sunday, May 13.

The mini card party winners at the Parish Hall last were the following: lone hands, Diane Warnes. Others, Freda Stacey, Sid Rowe, Charlotte O'Neil and Charles Beaharrell. This is the last of the mini card parties for now.

That's all for this week. I hope to see you all next week.

These youngsters were the winners of a poster contest in honour of nurses week. Shown with their work, are, from left: Kristen Creelman, first; Karen

Chatterton, second; Keri-Lynn Brown, third; Angela Newcombe, fourth; and Jeff Stamp, also fourth.

## Dorset News

**By PHYLLIS BRISCOE**

"Experience teaches us that there is a small but important difference between keeping your chin up and sticking your neck out."

The worms must be extra large and nourishing this year as I have never seen so many big fat robins wandering around. It is nice to have the birds back even though our spring weather is rather erratic. And the little spring menaces are back. What did we do to have to have black flies ruin the best part of the year weather-wise? Just keep our fingers crossed that we will have a hot spell and burn them out.

We wish a happy birthday to Yvette Black who will be eight on Saturday, May 26.

Joe Avery died on Sunday, May 6, in Niagara Falls where he made his home. He was 91 years old. There is still an older brother living, Len, 93, also of Niagara Falls, a younger brother, Gordon of Niagara Falls and a sister Elsie Burk of Huntsville. The Avery family were pioneers in the area and lived at Paint Lake. The old homestead is now the home of the

late Orrie's son Graham and his family.

Ted and Gloria Morris returned home a couple of weeks ago from a trip to Florida where they stayed at Lehigh Acres, near Ft. Myers, where Gloria's parents reside. While there they drove down to Key West, a beautiful drive with the quaint city at the end of the line. They had Mr. and Mrs. Singer, the parents, with them and brought them back to Ontario for the summer.

The annual Firemen's pig roast will be held on Saturday, May 26 at the Dorset Community Centre. Dinner is at 7 with a social hour beginning at 6. Dancing will follow the dinner with music by Roy Kitching. Tickets available at the Dorset Garage. Our Volunteer Fire Department is a group of dedicated men who give freely of their time and effort to be on the spot in case we have the misfortune to have a fire in our home. Their time is not their own as they are on call 24 hours a day. They are to be commended and should be supported in their

fund raising efforts.

The Dorset Bowling League wound up the season with a banquet at the Dorset Community Centre on Saturday, May 5. They enjoyed a roast beef dinner catered by the Dorset Life Liners. The series winners were Earls Pearls; playoff champs, the Hot Shots; high average, men Gord Darby, ladies, Kathy Shell; high triple, men Ralph Raven, ladies Joyce Broersma; high singles, men Bill Cunningham, ladies Ev Rutledge; low games, Dale Cunningham and Ruth Reed; most improved bowler, Kim Green; perfect attendance, Jack Stevenson. After the meal and awards they enjoyed dancing to the music of one of our newer but popular disc jockeys, Andy

MacKay.

The Dorset Lions club held their annual father, son and daughter banquet, this includes guest children who are invited by the Lions not having young children of their own. There were 18 children entertained altogether. The Lions prepared the food themselves, barbecuing hamburgers and hot dogs, baked beans, etc. with ice cream for dessert. After the food was enjoyed by one and all they were shown a movie, "Scavenger Hunt". Great fun for the kids and a nice gesture by the Lions Club.

H.H. Take mushrooms from their plastic container and refrigerate them in a brown paper bag. They will stay fresh much longer this way.

## Carnarvon News

**By ANN MCKAY**

We are happy to welcome back from their winter homes Ross and Muriel Harrison from Fort Myers and Maurice Windsor from Tampa. Maurice's son Garth and

wife Helen drove him home and stayed for a few days before returning to their home in Hornepayne.

We were quite surprised by a visit from Ted and Ruby. Please turn to 22

## West Guilford News

**By E. COOPER**

Brian and Charlotte Watts are the new owners of Rip's Sleepy Hollow. We welcome them to the area, and good wishes for a successful summer with the tent and trailer park.

Lorna Stackhouse has been visiting for a week with her son and family, Murray and Sandra Hague of North Bay.

Welcome home to Ken and Ruth Sawyer who have been in Florida for the winter.

Whit and Jean Carr travelled to Ottawa last weekend to attend the first communion of their grandchildren, the twin daughters of Bill and Elaine Taylor.

Kathleen Owens and Margaret Milne accompanied Earl and Eleanor Cooper to

Sudbury on Friday to attend a convocation for the awarding of diplomas and honorary degrees. The event took place in the new Science North centre.

Basle and Joan Cooper cordially invite their friends and relatives to a shower for the bride and groom, Mr. and Mrs. Tim Priest, to be held on Sunday afternoon at the Recreational Centre.

Marge Bain is visiting her sister in Cobham, England for three weeks.

Alma Morrison is with her Reynolds families, Nila and Leslie, Bill and Carol and children in Oshawa this week.

Paul Madden was home for the weekend from Waterloo University.

## Norland Natter

**By KELLY GRAHAM**

Well, it looks as if we're in luck; the sun is shining. Let's just hope it stays this way for a while, or at least until Saturday, the date of our bi-centennial picnic.

On Sunday, May 20 our annual fireworks display will be held in Ward Park in Norland. The display, which will be sponsored by the Norland Volunteer Fire Fighters, is free of charge and will begin at dusk. Although admission is free donations will be accepted from those not in the hockey pool. All proceeds will go toward next year's fireworks display.

Don't forget the New Kawartha Swim Program Bake Sale to be held on Saturday, May 19 at 10:00 a.m. in front of Shield's Hardware in Cobocok.

As this weekend is May 24 weekend I think it is appropriate to extend a hearty

welcome to all our summer visitors who may be moving up this weekend. Although our community is small there is usually some kind of activity taking place. Almost every night there is an exciting ball game taking place at Ward Park and Public Beach (down Shadow Lake Road) is always open to the public. The horse draw (which also features many other events) usually takes place in the first two weeks of July and the Coboconk Lions' Fair is also held in July. Anyway, whatever pastime you enjoy I hope you are able to enjoy in the Norland area.

The euchre scores for Thursday, May 10 were as follows: ladies' high, Barb Kenneth; men's high, Stan Stewart; ladies' low, Flo Alton; men's low, Tom Bowins; lone hands, Tony Kenneth, Grace England.

## Kinmount Korner

By MILLIE MOSS

When I went to school we used to say March winds, April showers bring forth the May flowers. This year we had spring flowers in March, high winds in April and so far lots of rain in May. Oh well, when I went to school we also used to say ounces, pounds and miles, not to mention Fahrenheit degrees.

Guests of Kenneth and Gardiner over Easter were Arthur and Bernice Owens of Weston and Gordon and Lillian Taylor of Norland.

Guests at the cottage of Arthur and Bernice Owens recently, were Hector and Evelyn Owens of Weston, Bruce and Betty Owens of Scarborough, Elizabeth Owens from Peterborough and Kenneth Gardiner, Kinmount.

Happy birthday to two of our townspeople, Kenneth Hyams and Theresa Martin both of whom celebrated their special day on Tuesday, May 8.

A beautiful seven pound 13 ounce daughter to be named Heather Mae was born to Theresa Martin in Scarborough on March 30. Proud grandparents are Charlie and Gwen Martin of Kinmount.

Our local Post Office is celebrating its one hundred and twenty-fifth birthday and everyone is invited to join in the celebrations to be held Friday, May 18. The postal staff are planning a great day for you so here's hoping we'll see all of you there.

Welcome home to Bill and Win Wilson of RR 1, Kinmount, who have been at Pickering for a few days last week, visiting with family, Joan, Harold, Jennifer and Mike Mills.

Tuesday morning, May 8, was when Adam, an eight pound one ounce son was born to Lynne and Bill Heatherstone in the Toronto area. Jean and Bob Hollobon are one pair of the happy grandparents who have their home at RR 1, Gelert. Jean will spend a couple of weeks with her daughter at Ajax. Waiting at home for her new baby brother is Erin.

We enjoyed the company of Janet and Tony Abela,

now of Thornhill, for an hour or so last Sunday.

Happy belated birthday to Ambrose Watson who turned 83 on Sunday, May 5. Visitors on his special day were Buddy and Pat Watson with their children Michael, Jeffrey, Jason and Tara from Bowmanville, Charlene and Steven Fountain, Mrs. Jean Scarlett and daughters Bonnie and Rhonda, Mrs. Peggy MacNeal, Lisa, Darryl and Mike LaFrance from Oshawa, Mr. and Mrs. Terry Tutcliffe, Stephanie and Tommy of Orono, Leo, Autumn and Laurie Watson of Minden, Mr. and Mrs. Walt Keely and Dianne of Janetville, Norma and Bert Bamford of Howland Junction Road.

On Tuesday, May 8, Clara, Leo, Autumn and Laurie Watson attended the confirmation of grandchildren, Michael, Jeffrey, Jason and great granddaughter Sherrie Watson, held at St. Joseph's Parish Church in Bowmanville.

Our sincere sympathy goes out at this time to Ernie Roylance and his family in the sudden loss of his mother last week.

I was pleased to hear Ed Byrne is coming along following his surgery.

Joyce and Jack Hills stopped by our house for a short visit on Friday, May 11.

I am sorry to report the following on the sick list: Helen Jones, Bill Boland, Margaret Kyle, a grandson and a sister of June Cooper, Marion Auston's brother Ed, who underwent surgery last Tuesday, May 8, George and Albert Ash.

Cindy Watson would like to thank Betty Stuart, who held the lovely baby shower for little Shyanne recently, and all the girls who attended and helped make it such an enjoyable evening. Thanks too, to all the girls who were unable to attend the party but sent gifts anyway. A special thank you to Karen McBride who made such a beautiful cake for the occasion. She says it's a credit to call you friends.

Kinmount Public Library will hold their sale of surplus hardcover and paperback

books on Saturday, May 19 at 9:00 a.m. at the parking lot on Main Street between Dettman's and Hockley's stores. Any books you wish to donate before then would be gratefully appreciated and can be left at the book drop at the library. All money from the sale will go towards our fixtures, etc. needed at our library. You should drop in today and have a look around. You may well be pleased you did.

Beryl Gilmore was taken to St. Joseph's Hospital in Peterborough on Wednesday, May 9 for leg surgery to take place Thursday, May 10. She was to remain in hospital for a few days. Get well soon Beryl.

Come out and enjoy the Spring Salad Supper/Bazaar/Bake Sale sponsored by Kinmount U.C.W. to be held at Kinmount Community Hall, May 26 from 4:00 p.m. to 7:00 p.m.

Marg Viney was the lucky winner of \$18 in the 50/50 draw at the Kinmount Legion on May 5.

Wayne and Carol Smith of Georgetown were guests at the home of Bill and Dora Lilley over the weekend.

Other visitors were daughter Juanita and Margie of Ottawa, who had just returned from a six week trip to South Africa. They had lots of experiences and took some lovely pictures, especially of the wild animals.

Kinmount's first Wheels to Meals lunch at the Kinvale Restaurant on May 8 was a great success. Twenty six attended including the new co-ordinator, Donna Bailey and four volunteers from the Haliburton area. An excellent turkey meal followed by strawberry shortcake was provided by Mrs. Franzen and her staff who also gave Ken Hyams a special treat of a birthday cake. Following lunch there were five tables of euchre players and one couple playing cribbage. Everyone did a lot of talking and thoroughly enjoyed

themselves. The next Wheels to Meals will be Tuesday, May 22. If you would like to get involved phone Ken Hyams.

I hope all you moms enjoyed your special day. I hope Mr. Wren is better by now, and Jean Hollobon who suffered a fall while at the home of her daughter in Ajax. Jean is now mobile with the aid of crutches.

If you've lost a small black cat you'll find it any morning, crying on the downtown Kinmount Main Street. It sure is a lonely little mite. Little Adam and John Hill shared their bag of cheese crisps with it one morning. If you have room at your house I'm sure this little guy would fit right in. He's very friendly.

Saturday morning last sure was a busy time around Kinmount.

Many cars and vans with canoes mainly, but also towing big motorboats and flat bottoms were parked around town with many happy and outgoing people having coffee at the Kinvale Restaurant, and getting their bait at Hockley's five to a dollar

store. The skies sure looked threatening for them though. Watch for lawn sale signs from May 19 on. It should be a busy time.

Many of our local friends are preparing for upcoming friends and relatives these days and we are among them. We're looking forward to having Bill's sister, Mame Campbell from Miami, Florida, for part of the summer. Our son Bill and Jason should be back from Lakeland, Florida in another week or so too.

Well folks, stay well and happy, read the Echo and hang in there, summer can't be too far off. Give me a call at 488-2353 and remember the words of Oliver Wendell Holmes, "It is the province of knowledge to speak - and it is the privilege of wisdom to listen."

A very happy though belated wedding anniversary (the sixty-third one) to Zita Elizabeth and Archie Williamson, on May 7.

Visitors of Rube and Pietra Percy last week included Rolande Percy of Port Perry and Janice Percy of Highland Grove.

## Wilberforce News

At the Legion Hall on Monday, May 7 the annual election of officers took place. Ewart Wannamaker, Art Vardey and Angus Ruppnow of the Bancroft Legion officiated at the meeting. The new president of Branch 624 is Pat Gallen, first vice president Wilber Sanderson, second vice president Ron Buxton. This past year has been a time of achievement under the leadership of past president Harold Dingley. Unfortunately Mr. Dingley is in poor health at the moment. Best wishes to him for a return to fitness.

The Girl Guides and Brownies celebrated their tenth anniversary with a mother and daughter banquet. The evening began with the ceremony of the flags. A delicious pot luck dinner was enjoyed. Original members of the club and guests were welcomed by Guide leader Mary Barker. The most important part of the evening for the girls was the presentation of awards, won during the past year. These were numerous, showing that the Guides and Brownies had been diligent in their efforts. Everyone missed Brown Owl, Roberta Walsh, who was unable to attend. However, Tawny Owl, Doris Weymouth, proudly presented her brownies with their well earned merit badges. Mary Barker and Jan Watson rewarded the Guides, who looked very smart in their blue uniforms. A special award was presented to Marcia Jorden who had achieved perfect attendance for seven years. Donna Burroughs, one of the original Guide leaders, was on hand with some slides to show fun pictures of Guide activities taken over the ten

year period. A little play took place in which three Brownies flew up to Guides. These were Jodi Barker, Joyce Vaughan and Julie Bowen. Side tables displayed objects of interest gathered over the years.

On May 9 a meeting was held in the Hall to ascertain the amount of interest in the community for a senior citizen apartment building. A fair number of people attended. Most of the questions put to the government representative and to Monmouth councillor Al Revell concerned rental costs. The accommodation would consist of one or two bedroom apartments with rent geared to income for those in need of financial assistance. Those present were advised to send in as quickly as possible letters recently received pertaining to senior citizen housing. Many seemed to be in favour of the apartment project. A similar meeting in Tory Hill the previous day had a disappointing attendance of just two people.

A banquet was held at the Memorial Centre on Friday evening for the ladies' afternoon bowling league. The dinner had to be excellent with the catering handled by the Ladies Auxiliary. A presentation of trophies and awards guaranteed that no one went home empty handed. President of the league, Lorreta Billings of Gooderham, has done a fine job through the year showing the type of competent leadership necessary to keep things running smoothly and to keep everyone happy. Members were from a widespread area including Wilberforce, Harcourt, Highland Grove, Gooderham, Bancroft and beyond. A dance was held in

the evening with music by a D.J. from Apsley.

Chick Bidgood died last week. He and his wife Rita moved to Wilberforce many ago. They were bright, energetic people who created quite a stir in the community. Chick was a prospector and miner and he encouraged others to follow this type of work. He built the Bostonian Motel which was used by his fellow workers. He loved the outdoors and all sports that went with it. Some years ago, when the hopes of the mines faded, he and his wife moved to Peterborough. They have always kept in touch with their many friends in Wilberforce. A memorial service will be held in St. Margaret's church on May 14.

This Saturday, May 19 has been named Kintoria Day. The Kinsmen of the South Algonquin Club will be holding their annual auction through the day at the Wilberforce Arena. You still have time to send along articles that you no longer use for this big auction. Everyone knows that all proceeds from the sale go back into the community. A dance in the evening at the arena will feature "Loredo".

Recently a vehicle was observed stopping on the Township road that leads to the Wilberforce Veneer Plant and the driver dropping three bags of smelly garbage over the bank. This was thought to be campers, but was later discovered as local citizens. Monmouth has one of the best garbage dumps in the county and it is unbelievable that anyone should be too lazy to drive a little further to get rid of their refuse. These people should be charged for littering.

## Gooderham News

By MARY HADLEY

Birthday greetings to Mrs. Christian Madill on her 81st birthday recently.

Francis and Claribel Leveck are spending some time with Claribel's parents, Mirl and Walter MacDuff.

Marlene and Colin Moon of Oshawa visited Marlene's grandparents, Evelyn and Hubert Alsop. Accompanying them was the great grandson of the Alsops, Trevor Mollon of Port Perry.

The first bingo games of the season in the Community Centre were played last Monday evening. A good time, with some adding to their wealth, was had by all. These will continue in the

Centre each Monday evening at 7:30 p.m.

Welcome back to their cottage on Pine Lake to Pat and Walter Baron who spent part of the winter in Florida.

A bridal shower was held in the Community Centre last Friday evening. This was in honour of Cammie Hillis whose wedding to Ronnie MacDuff will take place in June. Many attractive and practical gifts were received by the bride-to-be. A tasty lunch was served to conclude a happy time.

Don't forget the dedication of the new Christian Education Centre addition to the Wilberforce United Church on Friday, May 18 at 2 p.m.

**Blue Cross "Pay Direct" Non-Group Coverage Available To All Ontario Residents Until June 15, 1984.**

Blue Cross announces that it is making available to all Ontario residents during the period May 1 to June 15, 1984, a wide range of health benefits not included in the government sponsored Ontario Health Insurance Plan (OHIP).

Between May 1 and June 15, 1984, any Ontario resident, regardless of age or previous medical history can purchase Blue Cross coverage on a "pay-direct" basis for the major portion of the cost of such benefits as:

- prescription drugs
- private duty registered nursing
- use of semi-private and private room in hospital; and others.

Ontario Blue Cross is a private, non-government organization.

If extra health coverage is not available to you through your place of employment, consider this Blue Cross "pay direct" opening.

Detailed brochure/application forms are available at the "Infocentre" at most Ontario supermarkets, shopping malls, at regional offices of the provincial Ministry of Northern Affairs, or by writing

# Haliburton Highlights

by Creighton Feir

The parking meters which are located in Haliburton village have now been changed over and they will now accept dimes and quarters only. One dime gives you 30 minutes and a quarter will let you park your vehicle for 60 minutes. Fines for meter violations will be \$2. per violation if paid within 48 hours. Fines for all other parking violations will be \$5 per violation if paid within 48 hours.

Captain Mailman and his wife and family who are with the Salvation Army Corp. in Fenelon Falls were visitors to Haliburton one day last week. Captain Mailman, who was stationed at Haliburton with the Salvation Army, was a recent guest on 100 Huntley Street.

Mr. and Mrs. Rex Boice have returned home following their annual winter vacation in Phoenix, Arizona.

The Rotary Club of Haliburton will be celebrating their 40th Anniversary with a big night at Wig-A-Mog Inn on May 24. It was 40 years ago that the Haliburton Club received its Charter at a special night at Wig-A-Mog Inn. Up through the years the club which now has about 50 members has rendered a great deal of service to Haliburton and surrounding area.

The Haliburton Curling Club held their annual banquet at Deer Lodge on Saturday night. Special awards were given out to the winning teams.

Rev. John James of the Haliburton United Church was away last Thursday, Friday and Saturday attending the Bay of Quinte Conference.

On Sunday, May 6, St. George's Gospel Choir took part in the services at All Saint's Kingsway and St. Paul's Anglican Church on Bloor Street in Toronto.

Mr. and Mrs. Jim Perrin have returned home following a visit with members of their family at Winnipeg, Manitoba.

The Rotary Club of Haliburton have announced that Rotary Exchange student, Maaik Sijphens will be arriving soon.

Bob Pollard of the Canadian Imperial Bank of Commerce at Haliburton attended a meeting of the bank held in Lindsay one night last week.

Murray Pearson was a recent visitor to Haliburton.

On Saturday, June 2, Haliburton County's Help a Village Effort Committee (H.A.V.E.) will have a big Walk for Wells for the purpose of drilling wells in selected drought-plagued villages in India. Numerous families, friends, cottagers and visitors - both young and old will be walking, individually and in groups. Already V.I.P.'s such as John Eakins, M.P.P. and Bernie Nicholls of the Los Angeles Kings Hockey Club of the National Hockey League, as well as the Baha'is of Scugog have stated their intention to walk. The Haliburton Legion Pipe Band will lead the walk from Haliburton.

The Maple Leaf Bakery on Maple Avenue in Haliburton held Donut Day last Friday and the first 50 customers received a free donut. Thanks to Mrs. Wilford of the local bakery for bringing some samples down for the Echo staff. The variety of donuts we received were really delicious and we thoroughly enjoyed them.

Congratulations this week and our hats are off to all those people in Haliburton who so generously donate their time and efforts in working with the young people. We often wonder if they receive the credit they so richly deserve. We are particularly thinking of those who are teaching in our Sunday Schools, youth groups, minor hockey, boy scouts, brownies, guides and other groups. We salute these people and give them a hearty vote of thanks. Where would the community be if it wasn't for people like you taking time off from your regular duties to help make our young people better citizens of tomorrow.

Mrs. and Mrs. Bart Hilhorst of Kinmount were visitors to Haliburton last Saturday.

All those who attended the Highlands Little Theatres presentation of the play "You Can't Take It with You" at the Haliburton Highlands Secondary School last Thursday, Friday and Saturday seemed to have really enjoyed the evening. This was the Highlands Little Theatre's tenth production. All of the proceeds from the play were donated to the Toronto Hospital for Sick Children.

There are still several street lights not in operation on Maple Avenue in the area between Kennedy Surplus and Park Street. They have been out since the last bad storm, and we hope that it won't be too long before they are back in operation and the street is lit up again.

I was wondering if you have any old photos kicking around your house that you could lend for a little while. We are running low on pictures for our Pic of the Past corner and I would certainly appreciate hearing from you. You can have them back immediately after we use them. Just make sure to supply us with as much information as you can about each photo.

If there is one road in the village of Haliburton that could use some work on it, we would have to say it is George Street. We mean the section from Pine Avenue to where it reaches Eastern Avenue. This section of the road is far too narrow and is in very bad need of re-surfacing.

The Haliburton Ministerial Association will be sponsoring an outdoor service of gospel music at Head Lake Park this Sunday evening, May 20, at 7:30 p.m. as part of the Haliburton Spring Fling.

Work has commenced on the interior of the former Western Tire Store in the village which will soon be the new home of Dysart Automotive and Marine. The grand opening will be held just

as soon as the alterations have been made and the stock is in its place.

Here we are in the midst of the final round for the Stanley Cup being played between the New York Islanders and the Edmonton Oilers. It seems that the season is getting longer every year. I think that we all have to admit that the playoffs this year have been really thrilling with each and every game played and it all goes to prove the point that we see really good hockey played when the chips are down in the spring.

Many people in the village including myself have been wondering now for the past couple of weeks about the building material that was stock piled at Rotary Beach. This week we were given the answer as workmen started to build planters around the entire area that was paved last year. They should look nice when completed and they will stop people from running into the tennis court fence or into the park area.

Hundreds of people are expected to be in Haliburton this coming Sunday for the Haliburton Spring Fling. A number of very interesting activities have been planned for the occasion with plenty of good music by local musicians to thrill you all afternoon. Bring along the entire family for a day and an evening of good clean fun.

One day last week Mrs. Pat Kennedy who is employed at the Family Medical Centre went home for her lunch break to find flames coming from some meat she had cooking on the stove. When the flames were extinguished the interior of the house owned by Pat and Cheryl Kennedy had suffered extensive smoke damage. Apparently the smell of smoke keeps lingering throughout the

house and its very hard to get rid of.

We are still hearing good reports about the splendid Lions Club parade held in Haliburton recently. One of the main things that seemed to thrill the crowd along the parade route was the music of the six bands that took part.

Work is progressing well on the new addition at the Shamrock Service Centre in Haliburton. They tell me that it took less than a day and a half to lay the blocks. This must be some kind of record.

Carpenters and painters have been busy lately on repairing and painting the caboose at the entrance to Head Lake Park near the Rails' End Gallery. The caboose which is being used as an information centre for visitors should look smart after the improvements have been made. The work is being carried out by Carroll's Painting and Concoits of Haliburton.

The CGIT mother and daughter banquet was held at the Haliburton United Church on Monday evening.

Marilyn Burton of Haliburton was the guest speaker when the Rotary Club of Haliburton held their weekly meeting at the United Church on Thursday night last.

Every Tuesday night at St. George's Anglican Church in Haliburton is a time of singing and fellowship which is open to people from all denominations. At the present time a four part film series "Jesus of Nazareth" is being shown.

A beautiful wedding was held at the Full Gospel Lighthouse in Haliburton on Saturday when Allison English daughter of Mr. and Mrs. Vance English was united in marriage to Michael Rae, son of Mr. and Mrs. Grant Rae of Haliburton.

## Cardiff council minutes

A regular meeting of the council of the Corporation of the Township of Cardiff was held on May 4, and the following matters were considered:

A by-law to accept a tender for the supply and delivery of diesel fuel and leaded gasoline was passed.

A by-law to accept a tender for the supply and delivery of furnace and stove oil was passed.

The proposal from Lewis Electric for the supply and installation of 200 AMP full breaker panel as submitted May 4, 1984, for office building, was accepted in the amount of \$960.

The clerk-treasurer was authorized to invite tenders for office renovations as per specifications submitted by deputy-reeve with closing date of June 1, 1984.

The following accounts were authorized for payment: Disbursement Voucher #84-4, inclusive in the amount of \$106,359.08.

Edison Lewis was hired as Waste Disposal Site attendant with work hours in accordance with Township of Cardiff Policy Statements and rate of pay as per municipal by-law.

The Travel Information Centre will be operated for the same number of hours as in the 1983 season, and Jean Ward was hired as Supervisor. The Supervisor shall schedule work hours and report any management problems directly to full council.

Council advised that the municipality will provide year-round road maintenance on the Eels Lake forest access road from Lot 7 Concession VI to Lot 1 Concession IV effective immediately.

Council will transfer construction funds from Abrams Road to Pine Drive and Houston Road to Lawrence Avenue.

The Township will sell a 10 ft. dump box for use on a single axle truck to Bill MacKenzie for \$500.

Council accepted a proposal by the firm of Clarkson Gordon, dated April 16, 1984 for the implementation of microcomputers for the Township of Cardiff and implementation will be scheduled for completion by December 31, 1984. Application will be made to the Ministry of Municipal Affairs and Housing for a grant under

the Municipal Action '85 program. Financing of the project will be during a two-year term 1984 and 1985.

Council agreed to contribute \$500 to the Burleigh-Anstruther rescue unit for the year of 1984.

Further discussion was deferred to June 1, 1984 meeting on County Road System.

The reeve and deputy-reeve will record a negative vote at county council May 16, 1984 regarding change in vote distribution.

The clerk-treasurer was authorized to purchase a heavy-duty 1/2 ton pick-up truck from the lowest bidder.

Council accepted the work schedule for the cottage pollution control program to be performed during the summer of 1984 by students hired under an Environment 2000 grant, as submitted by the clerk-treasurer.

A by-law to appoint an Interim Chief Building Official was passed.

The finance committee was authorized to spend a \$662 provincial bicentennial grant

for decals of the municipal crest to be used on vehicles.

The next regular meeting of council will be held on Friday, June 1, 1984 beginning at 7:30 p.m. in the Council Chambers, McGillivray Road, R.R. #3, Bancroft, Ontario. The agenda for this meeting will close for additions on Friday, May 25, 1984 at 4:00 p.m.

### Special Meeting

A special meeting of the council of the Corporation of the Township of Cardiff was called by the majority of members on May 4 for the purpose of reviewing all the estimates of the sums required to be raised by taxation for all purposes in 1984 and for adopting 1984 mill rates and expenditures for all purposes.

All members of Council were present except deputy-reeve Ross E. Duncan

Staff in attendance were: Gayle P. Bates, AMCT Clerk-Treasurer. No one else was present.

Council reviewed all estimates of sums for revenue and expenditures for all purposes in 1984.

uses in 1984.

A by-law to adopt the estimates of all sums required to be raised by taxation for municipal, local school board and County purposes in the 1984 taxation

year, to set the rates by which said sums shall be raised, to set the minimum tax levy for 1984 and to establish the number and due date of tax payments in 1984 was passed.

## Writers' Corner

### Foggy Day

Waste not the quiet, foggy day  
In useless longing for the sun.  
'Twill come again its patterned way.  
Enjoy that peaceful, restful one.

Vibrations harsh, and raucous noise  
Impinge on us from every side.  
Relax, calm down, regain your poise,  
Then listen to your inner guide.

Enfolded in that gray cocoon,  
Soft sounds alone can penetrate;  
Accept the pause, 'twill pass too soon;  
Use it, my friend, to meditate.

## Agricultural Report

from page 15

41 head of quality breeding pigs from several producers in Victoria County were sold in the sale for an average price of \$285.

Several buyers from outside Victoria County were in attendance with a number of animals going to the Grafton and Mount Albert areas.

The boars in the sale averaged \$338, the bred gilts averaged \$306, and the open gilts averaged \$216.

Plans are already underway for the fall sale on Saturday, September 29, at the Lindsay Central Exhibition Grounds.

### Weeds Along the Roadside

What weeds are in the roadside along your property? Are these weeds on the noxious weed list? Is the municipality doing anything to control these weeds? What is the condition on your side of the fence? What about a neighbour's place? Do you know the weed inspector?

There are many questions, but not everyone may know the answers. If you are not satisfied with the situation or results let your municipality know about your concerns. Find out who the weed inspector is and then contact that person, if you are concerned.

A meeting for people involved in controlling roadside weeds in Victoria County was held recently in Lindsay. At this meeting the people were informed about the weeds and their control.

Annual weeds, which come from seed each year, are best controlled by spraying before they flower.

Biennial weeds, which grow from seed one year and flower the next year, are best sprayed in the fall or early spring while they are small.

Perennial weeds, which can grow from seed or old roots, are best controlled when sprayed at the late bud or early flower stage.

The bottom line is that one spray program may not control all these weeds.

Brush type weeds such as Buckthorn are best controlled by a basal bark spray, or be cut and the stumps sprayed. This treatment can be done anytime of the year that the control is not hampered by too much snow. Use products with 2-4-D and di-

chloroprop mixed in fuel oil. "2-4-D Susceptible Crop" signs are available from Maureen, County Weed Inspector, at 324-9411, or from the Lindsay Agricultural Office.

### Moisture Testers

The percent moisture in a crop is very important at harvest. Many times we hear of people who did not know the moisture of their hay crop. There are ways to find out. A factsheet tells you how to use a microwave oven. Some moisture testers, like the Koster, blow dry the sample. Others use an electronic read-out.

In any case you should know the moisture especially if you are putting up haylage, or silage, or barn drying hay.

How accurate is your moisture tester? Most farmers use the hand squeeze. This can be a good method but a good idea is to calibrate it once a year. The best way to

calibrate your hand squeeze is to compare it with a moisture tester. You are not interested in accuracy, only in finding out if the sample is in the right moisture range - how to tell if it is too wet or too dry.

Only a couple of testers will determine hay moisture. One is the Koster tester. Samples can be brought to the Agricultural Office for a check on their Koster tester.

Many people have access to a good tester for grain samples. The local elevator has their tester checked regularly. You can take a sample there or if you have a tester, you may be able to compare your tester with their tester. There can be discrepancy with testers depending on conditions, calibration, battery power, size of sample, and person reading the tester. It is important that you follow the instructions for your tester in order to make valid comparisons.

## Mönmouth council

from page 10

accounts were ordered paid: General voucher of \$48,891.96; Welfare payroll of \$1,341.07; and Roads voucher of \$7,142.18.

Council agreed in principle with the proposed reconstruction of Highway 648 from the junction of Highway 121 northerly 7.8 Km to Wilberforce Bridge as presented by Doug Huddle of the Ministry of Transportation and Communications at the May 7, 1984 meeting of Council.

Council requested the Ministry of Transportation and Communications to change the signs on the west side of Highway 648 and north of County Road Number 4, marking Fleming Road, Schofield Drive and the Glens, to allow safe access from County Road Number 4 to Highway 648 for bus and truck traffic.

Council will advertise for sale and accept tenders for the following equipment a) 7 yard box b) 10' box c) 1972 truck and or sand hopper d) plow and wing. Tenders are to be received on or before June 4, 1984 by 4:00 p.m. The highest or any tender not

necessarily accepted.

Council will purchase 1 - 400 watt mercury vapour and 4 - 250 watt mercury vapour street lights from Skyline Mfg. Ltd.

Melanie Rutter will be hired as day camp and assistant swimming instructor and Tracey Mumford and Sherry Sheehy as day camp instructors under the Employment Summer Canada Grant.

Council will apply for the bac pac and Management systems grant under Municipal Action 85 Program for a computerized accounting system.

## Carnarvon News

from page 16

Hayward from Victoria, B.C. last week. They also visited the Cliff Skeldings and the Frost Centre at Dorset where Ted and Ruby worked for many years. They are well known to many in the area and left their best regards before going on to Ted's regimental reunion in Toronto.

Mrs. Bill McKay is spending a couple of weeks at their cottage on Matagami Lake. She was joined there by her sister Mrs. Rosemary Pegat of Toronto. Bill will join them at the holiday weekend.

Mother's Day on Sunday

at the Zion United Church was a day to celebrate when two little boys were christened: Andrew, son of Mr. and Mrs. Larry Watson of Bridgenorth, and Adam, son of Mr. and Mrs. Warner Tomlinson of Lake Boskung.

We extend our deepest sympathies to the family of the late Ivan Harrison. Most of the mothers of our area had their families home for Mother's Day but the feel of the temperature makes it feel almost like Valentine's Day.

Anyone with news items please call 489-2924 by 2 p.m. Sunday.

## Senior League

from page 8

Chapel, West Guilford, served the tea party this Thursday. I had company so could not stay. We had a taste and it was good, before we went away. Then they had a sing-a-long. Doris the music did play.

Linda English is doing fine after her operation. We understand when she gets back her strength, she is going on vacation.

Now here is more news - Lola Prentice won the game of pitching horseshoes.

Bev Gewet, Lewis, Jean and Jason Stevens called the bingo numbers here on Thursday night. We thank them for coming and doing the job just right.

Our entertainers came again on Friday afternoon, Grace to lead us in the singing, Fred Ballard to play the tunes. Fred really has the

touch. Grace had numerous poems to read which we enjoy so much.

Edith Welch, president of the Residents' Council, we hear of her at last. She is in Lindsay hospital in a plaster cast. I hope you'll soon be back with us. Edith, here at Hyland Crest. Until then we are wishing you the best.

Friday night, Payne, Deacon and Don Burch came up from Minden Town. They all come in their turn and seldom let us down. They played and sang for an hour or more. They were really sharp. Don not only played the harmonica but also the old jew's harp.

Before I close this letter, I would like to say, "God Bless all mothers on the thirtieth of May, which is Mother's Day."

Happiness is often the result of being too busy to be miserable.
